Officers Considine, Mahan and Costello rounded up six members of a gang Saturday night that has been bothering the officers who patrol the beat on Moody street between Tilden and Tremont streets. It seems that on Saturday night in particular there are a number of men who refuse to either go home or change their lounging place after the barrooms have closed for the night and openly defy the officers.

On last Saturday night, however, the three officers already named decided to put a stop to this program. The customary gang that hangs around Tremont street was told to move on and when there was no response to the officers' orders things began to happen. Each officer grabbed two men and started with them to the box. Officer Mahan was in plain clothes but showed his badge to Manuel De Silva before placing him under arrest. De Silva had other notions in his head, besides going to the police station, it seems, and immediately gave battle to the officer, striking him a nasty wallop in the eye. The officer was also hit from behind, it is said, by Francisco Medeiros, Manuel De Sonnes, Manuel Valanti, Frank Silva, and Manuel Silva were each of the four who were carried by the two other officers. All of them were fined \$10 for drunkenness in police court this morning and De Silva, who assaulted Officer Mahan, was also given a suspended sentence of four months to the house of correction.

"As Ugly as Sin"  
Sanford W. Putnam, a man whom Officer Clark testified to finding in a drunken condition on his way home from Billerica Saturday, was in court this morning. His father, an old man who resides in Wilmington, told the court that his son was perpetually drunk and that he was "as ugly as sin." The father testified that the defendant had knocked him down repeatedly when in a drunken temper. The court did not waste much time on his case but sent him away to the reformitory. He appealed.

Chewed Officer's Finger  
James Davis, a young man who claimed Tynghor as his home, pleaded guilty to the charge of drunkenness. Officer Drowett, who made the arrest, showed the court a finger which he testified the defendant had chewed upon while making an effort to escape. Davis, in spite of his youth, was given the maximum penalty, a \$15 fine.

PLANS READY  
FOR STATIONSAt the Boulevard Wells  
and the Cook  
WellsThe Stations Will Be  
Experimental and  
Quite CostlyAnd the Scheme Is to  
Eliminate Iron at  
BoulevardAnd Carbonic Acid Gas  
at the Cook  
Wells

Engineer G. H. Chase, first assistant to Consulting Engineer Barbour, of Boston, came to Lowell Saturday, and submitted plans for experimental stations at the boulevard and Cook wells. The proposition is to remove, if possible, the surplus of iron in the boulevard well water and to treat the Cook well water for the purpose of removing the excess of carbonic acid. This acid, the state board of health has stated, has such action on lead pipe as to render the water injurious to health in the event of the wells being used for more than a few weeks at a time.

The Cook Wells  
A station built along the lines described in the plans submitted by Engineer Chase would cost somewhere in the vicinity of \$2500 and time would be used to neutralize the carbonic acid in the water. The line would be put in a little tank attached to a tank of from \$600 to 10,000 gallons. The water would pass from the smaller tank into the larger one where an agitator will give it a thorough mixing and from the big tank the water will be forced by a pump into the conduits. It is believed by Engineer Barbour and his first assistant, Mr. Chase, that the line will make a good re-agent and that in time, perhaps, the pipes will receive a coating that will so serve the purpose as to render the use of the station necessary only at times. The amount of line used would be very small as compared with the volume of water and would vary, of course, according to the amount of water pumped.

The Boulevard Station  
The plans for the experimental station at the boulevard are more complicated yet not as complete, perhaps, as the Cook well plans. The boulevard plan would include two filtrations. In the first bed the water would be aerated by dropping into a bed of coarse sand and the second filtration would be through a much finer sand. In the experimental stages the water will be metered from the first to the second tank or filter in order to ascertain the amount of water that can be filtered in a given time. It is expected that both of these plans will be put in operation as soon as possible. Mr. Barrett said today that he would like to start right away on the Cook well station. "It seems," said Mr. Barrett, "an almost purely chemical proposition from start to finish. I have consulted the best authorities in the country and if given the necessary permission, I will go along the lines as planned by Engineer Barbour. He is a consulting engineer and one of the very best in the country. He is now engaged in installing a \$3,000,000 plant at Akron, Ohio, and he has also been consulted in New York's big water proposition, a proposition greater, in my estimation, than the Panama canal."

Fifty-two Wells Abandoned  
Asked today if he had any positive proof that the amount of iron was increasing in the wells at the boulevard, Mr. Barrett said the department had had such proof as to render it necessary to abandon 52 wells that were yielding nearly 2,000,000 gallons of water a day. "We thought that by restricting these wells we might get rid of some of the iron. The wells were closed in January, 1912, and were not opened again until April, 1913. We pumped them for all they were worth but the iron had so discolored the water that it was no other alternative but to close the wells. We have had what we call 'darker signals' from three different sections of the city. Iron is not harmful, but it turns the water so as to make it look far from inviting and to wash clothes with it would be entirely out of the question."

## SENTENCE SUSTAINED

In Contempt Case Against Gompers,  
Mitchell and Morrison—Two Latter

Were Fined \$500 Each

WASHINGTON, May 5.—The contempt of court judgments on Samuel Gompers, Frank Morrison and John Mitchell, officials of the American Federation of Labor, were sustained today by the court of appeals of the District of Columbia, which, however, revised the sentences to give Gompers 30 days' imprisonment and fine Mitchell and Morrison \$500 each with no jail term.

The chief justice of the court, dissenting, held that the entire judgment should be reversed. The lower court gave Gompers one year, Mitchell nine months and Morrison six months without option of fine. All were convicted of violating a court injunction in the noted Bucks Store & Range Co. case.

An appeal from the decision today will be taken to the supreme court of the United States if attorneys for the labor leaders can find ground upon which to ask the highest court to review the judgment. On a previous appeal to the supreme court the judgment was effectually dismissed and the contempt proceedings were brought all over again. In the previous action the decision of the court below holding the men in contempt was unanimous. The dissenting opinion of the chief justice today probably will present one avenue of further appeal.

The contempt was alleged to have been the publication of the name of the Bucks Store and Range Co. in a so-called "boycott" list in the American Federation of Labor's official magazine after it had been forbidden by the court.

SCUTARI'S FUTURE  
UP TO POWERSKing Nicholas of Montenegro Decided  
to Evacuate—Action Caused Un-  
bounded Satisfaction

LONDON, May 5.—Sir Edward Grey, the British foreign minister, announced at today's meeting of the ambassadors that Montenegro had unconditionally placed the question of the future of Scutari in the hands of the European powers. The decision reached by King Nicholas at the very last moment had the effect of immediately relieving the great tension on European politics and caused unbounded satisfaction to diplomats and the general public. The stock exchange at once responded to this feeling and the commission generally hopes that this action of Montenegro would do away with all necessity for military incursion into Albania.

## MURDERER IS EXECUTED

William Lingley Dies With  
Smile on Lips

OSSENING, N. Y., May 5.—William Lingley, alias "Big Bill" went to death with a smile on his lips in the electric chair at Sing Sing prison early this morning, paying the penalty for the murder of Patrick Burns, a Bronx saloonkeeper. He shot Burns in an attempt to hold up the saloon in February of last year.

business, try The Sun "Want" column.

King Nicholas of Montenegro today decided to evacuate the fortress of Scutari in response to the demand of the European powers.

The king of Montenegro when he took possession of Scutari on April 23 after a six months' siege which cost the lives of thousands of Montenegrins and Turks, declared he would hold the city until the last drop of Montenegrin blood had been spilled. As the European powers had decided previously that Scutari was to form part of the future autonomous state of Albania, a crisis was brought about and the powers immediately brought strong pressure to bear to force him and his troops to evacuate the place. In the meanwhile Austria took energetic steps to enforce the power's decision and concentrated large bodies of troops in Bosnia, Herzegovina and Dalmatia. The powers in the interim instituted a blockade of the Montenegrin coast.

Second Assistant  
ChiefBernard J. Dunn, for several years a  
lieutenant at the Race street hose com-  
pany, No. 8, has been made captain of  
that company, to succeed Capt. Daniel

All these demonstrations, however, seemed not to affect the determination of the king. Some of the Montenegrin troops were withdrawn from Scutari in order it was said to resist a possible Austrian advance. Then word came that Austria and Italy had entered into an agreement to solve the Albanian problem by a military expedition and it was known that the Austrian army was preparing to march forward. The attitude of Russia under these circumstances was a matter of great concern to Europe and when she joined in the pressure being exercised on Montenegro a sigh of relief went up as it had been thought she would resist any attempt by Austria to march her army southward.

It was suggested during the negotiations that the king of Montenegro was to receive territorial compensation in some other direction if he would give up Scutari and that his majesty was preparing to accept this offer.

Barrett has been appointed to succeed  
Lieut. Dunn.These appointments were announced  
by Commissioner Andrew E. Barrett to-  
day. William N. Barrett is Commis-  
sioner Barrett's brother.

Asked if he would appoint new men to the Race street house to fill the vacancies caused by promotion, Commissioner Barrett said: "I have nothing definite in mind relative to the appointments, and it may not be necessary to make any. Hoseman William N. Barrett is out with a broken arm and if he returns there would be no vacancy to fill. Martin H. News reached this city today that Dr. John W. Coughlin, a member of the national democratic committee, had decided to recommend Major Robert J. Crowley of this city for the postmastership, to succeed Mr. Legare, resigned.

The announcement came through telegrams from Mr. Humphrey O'Sullivan to Hon. James B. Casey and J. Joseph O'Connor, Esq.

Mr. O'Sullivan had previously announced that he would preserve a neutral attitude in the contest but decided evidently later that he should recommend Major Crowley.

All the other candidates received letters today from Dr. Coughlin informing them of the action taken and stating that his friendly relations with Mr. O'Sullivan made it impossible for him to do anything different.

It is understood that in an interview with Mr. Casey, Dr. Coughlin stated that he would be guided entirely by the advice of Mr. O'Sullivan and then

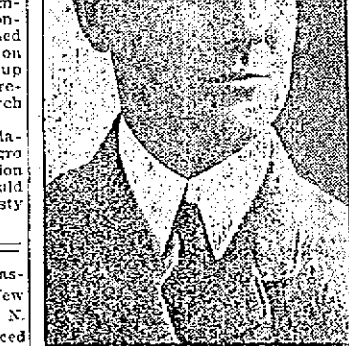

At a meeting of the municipal council held this forenoon a date was set for a hearing on an order to borrow \$34,500 to liquidate the unpaid bills of the street department for 1912. The date set for a hearing was May 20, and the order, by its title, read as follows:

Order to borrow \$34,500 for the liquidation, cancellation and discharge of certain liabilities and indebtedness created against city of Lowell in the department of streets and highways during and for the year 1912. In excess of the appropriation made therefor for said year and appropriating the same therefor.

Mayor O'Donnell called to order at 11:25 o'clock and the resignation of Thales P. Hall from the park board was formally accepted. On motion of Commissioner Cummings a vote of thanks was tendered Messrs. Hall and Pickman, the retiring members of the park commission.

On motion of Alderman Barrett the board proceeded to the election of a park board commissioner to succeed J. J. Pickman, and, on the third ballot, Dr. Roderique Mignault was elected, receiving the votes of Messrs. Barrett, Brown and O'Donnell.

The board then proceeded to the election of a park commissioner to succeed Thales P. Hall, and John H. Mills was elected on the first ballot. His election was unanimous. Mr. Mills is an overseer for the Mohair Plush company and especially prominent in British-American circles. He is a former president of the Bunting Cricket club and is connected with other British-American societies. It is generally conceded that

ROBERT J. CROWLEY

when the latter had announced that he would not take any part in the contest, Mr. Casey and some of the other candidates were very much pleased.

Major Crowley attended the democratic national convention with Mr. O'Sullivan and was in close touch with the democratic leaders. Mr. O'Sullivan made a big fight for Dr. Coughlin's election and but for him somebody else might have been chosen for the committee. Mr. O'Connor was also at the convention as a regular elected delegate and he opposed Dr. Coughlin's candidacy, favoring Mr. McDonald of the state committee.

Mr. Casey, interviewed by a Sun reporter this morning, said that as a democrat, he did not see anything left for him to do in the matter as he has placed his candidacy in the hands of the postmaster-general in hopes that Mr. O'Sullivan would not endorse any particular candidate.

The matter is now up to the president and the postmaster-general.

# HAS RESIGNED AS CHOIRMASTER

St. Louis' Church Loses Services of Olier

J. David

The many friends of Mr. Olier J. David, choirmaster at St. Louis church and an employee of the Metropolitan insurance company will be pleased to learn that he has been promoted to the position of travelling deputy for the insurance company. Accordingly Mr. David was forced to resign his position as choirmaster of the church, and Mr. Jules Morrisette, a prominent member of the choir was chosen to fill his place.

Mr. David has been choirmaster of St. Louis church for the past nine years, or since the church was opened, and was recognized as one of the best leaders in the city. With untiring efforts he succeeded in making his choir one of the best among Catholic churches of Lowell, and his departure will be deeply felt by the entire congregation. Mr. David, who is but a young man has been in the employ of the Metropolitan company for about five years, but his record was such that promotion came his way. He will start on his new duties in a couple of weeks. Mr. Morrisette who took charge of St. Louis church choir is possessed of

OLIER J. DAVID

a fine tenor voice and is well versed in church music. He is an employee of the Lawrence hosiery, and his many friends are wishing him a bright future in his new position.

the case of James Crowley, charged with drunkenness, was called. He told the court that the defendant had been sent home early in the evening drunk but that he had persisted in coming back again and rebelling with alcoholic beverages. Furthermore, he was endeavoring to borrow money from three strangers at the railroad station on Middlesex street when placed under arrest. He was ordered to pay a fine of \$15.

### Assault and Battery

Joaquin Alcos, charged with assault and battery upon Lena Perry, pleaded guilty in court this morning. On petition of Attorney Abraham Goldman for the prosecution the case was continued until Wednesday of this week. John J. Walsh pleaded guilty to a complaint charging him with the non-support of his wife and children. He was given another chance to straighten out

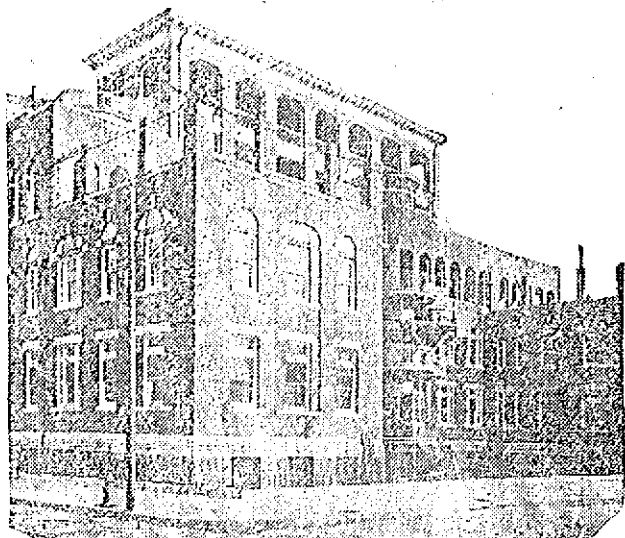

and leave liquor alone and was placed on probation with a four months' sentence to the house of correction before him if his wife complains of him again within the year.

### Drunken Offenders

Alexander J. Kennedy, a third offender for drunkenness, will spend the next four months in jail unless the superior court, to which he appealed this morning's sentence will prove more lenient than Judge Barlett. Frederick J. Falk, whose system seemed to be saturated with alcohol, was sent to jail for ten days, although it was only his first offence. The case of Antonio Figueria Debarros, charged with stealing cloth from the Appleton mills was continued until Friday.

Anderson Atherton was fined six dollars for his second appearance for drunkenness within a year. Joseph Tiffany, Jacob Kinnosh, Timothy Crowley were all fined the customary \$5 for Sunday drunks. There were seven \$2 drunks and six releases by Probation Officer Slattery.

# NEW PHIPPS INSTITUTE, HOSPITAL FOR STUDY OF WHITE PLAGUE

NEW PHIPPS INSTITUTE, PHILADELPHIA

PHILADELPHIA, May 5.—With the formal opening of the Henry Phipps institute in Philadelphia, Saturday, May 19, will be ushered in a new era in American medicine for the study, treatment and prevention of the dreaded white plague. This institute is the magnificent million dollar gift of Henry Phipps of New York city to the University of Pennsylvania. The new building, which is about to be dedicated, is believed to be the most complete plant of its kind devoted entirely to the study of tuberculosis. Mr. Phipps has spared no expense in

adapting the building to its special purpose and equipping it with everything suggested as necessary for carrying on this special line of research. Medical men and sociologists from all parts of the United States, eminent scientists and philanthropists will attend the dedicatory ceremonies. Dr. Edgar F. Smith, provost of the university, will preside, and at the close of his introductory address the degree of doctor of laws will be conferred upon Henry Phipps. The new building will then be formally turned over to the trustees of the university and accepted on their behalf by the provost.

he will make a good man for the position of park commissioner. Dr. Migneault is a well known physician and a prominent French-American citizen.

The following letter from John F. Donnelly, in which he offers himself as a candidate for the park commission, was read by the mayor, received and placed on file:

Lowell, May 3, 1913.

Dear Sir:—Please kindly present my name for vacancy in park board at the next meeting of the municipal council. These of the members are already aware of my candidacy, so in order to give the general council a chance to vote for an honest, conservative and progressive business man, I wish my name to go formally before the board.

Yours very respectfully,

John F. Donnelly.

7 Newhall Street.

Purchasing Agent Foye was sent for to explain the purchase in park board of the water department, a Stutz machine purchased a short time ago. Commissioner Barrett said he should have been consulted before the purchase was made, and Mr. Foye reminded him of the fact that he, Commissioner Barrett, said he would be willing to accept any machine if it was worth the money. "You told me," said Mr. Foye, "that you had nothing to do with the purchase of the machine and that it was up to me to buy it."

Mr. Barrett said he had nothing to say as to the respective merits of the two machines, the Stutz and the other

er machine on which a bid was offered, the Reo, but that the report had gone out that he, Barrett, would not accept anything but a Stutz car. He said it was a false impression that went out, and a false story was told when it was said that he was interested in any particular machine, and he moved that new bids be called for and that every dealer in Lowell submit his bid. "I want this atmosphere cleared up," he said.

Mayor O'Donnell did not think it was necessary to call for new bids. "We have acted according to law and I think we should get away from those petty squabbles. I do not see that there is any opportunity for anybody's honesty to be questioned in the matter."

Ald. Barrett's motion to call for new bids was defeated. Messrs. Cummings, Donnelly and the mayor voting against.

Messrs. Barrett and Brown voted to call for new bids. It is now up to Mr. Barrett to select either one of the two machines, the Stutz or Reo. Mr. Barrett asked permission of the council to have the automobile at the Warren street house repaired, according to the purchase agreement with the Knex Automobile company. Mr. Brown moved that the matter be advertised in the newspapers so that local dealers may be given an opportunity to bid on the repairs. It was so voted.

Commissioner Barrett asked that he be allowed to buy through the purchasing agent's office about 250 feet of double jacketed knitted hose; that bids be called for and that the bidders be requested to appear in person before the municipal council. It was so voted.

At 12:05 the meeting adjourned till tomorrow afternoon at 2 o'clock.

# DR. P. J. TIMMINS DEAD DEFIED PRES. WILSON SEN. GILBERT HITCHCOCK

Well Known Physician Died in Boston

HE WAS WELL KNOWN TO LOWELL AUDIENCES

Was Prominent in the Work of the United Irish League for Home Rule

Dr. P. J. Timmins, one of the foremost Irishmen of Boston, and for more than 35 years a resident of South Boston, died at the Carney hospital in that city, shortly after 8 o'clock last night.

### Mourning Friend

A contributing cause to Dr. Timmins' death was the loss of his dearest friend, the late Rt. Rev. Mgr. Denis O'Callaghan, P. R., of St. Augustine's church, South Boston. The two were inseparable companions for years. Both had worked hard for Ireland's cause. Both lived long enough to see at least the dawn of freedom for the land of their birth.

At the bedside of Dr. Timmins when he died were his wife, Mrs. Mary A., his son, Dr. Edward F., the Rev. P. J. Lyons, chaplain of the Carney hospital, Dr. R. N. Daley and personal friends.

Dr. Timmins was prominently identified with the United Irish League of America, a member of the national executive board of that organization, vice-president of the Central branch and a member of the South Boston branch. He made it a point to attend every meeting of the U. I. L. in this city and was prominent in the last national convention of the league in Philadelphia.

His dearest wish in life was that Ireland's wrongs would be righted, and when the home rule bill was passed in the house of commons by an overwhelming majority his joy knew no bounds. "A little over a year," he would say, "and we will have home rule."

### Born in Fermanagh

He was born in Fermanagh, Ireland, Feb. 25, 1851. His earliest school was conducted by a teacher, part of whose compensation was his board at the homes of his pupils. When able to make the journey he was sent to the nearest national school, about two miles distant from where he lived. At the age of 14 he went to a classical school at Chinooney, near Clones, County Monaghan. He next entered St. Macartin's Catholic Seminary in Monaghan. Completing the classical course there, he was sent to Maynooth college, where he completed the two years' course in philosophy.

He came to the United States in 1873 and secured a position as teacher at Holy Cross college, Worcester, remaining there from 1872 to 1875. He left there to fill a similar position at St. Francis Xavier's college, New York city, where he studied medicine.

Dr. Timmins was well known here in Lowell, where on several occasions he addressed meetings of the United Irish league. He spoke at the first meeting of the present branch at the Opera House about ten years ago. He was a man of great ability and very conservative in his views.

## THIRD TRIAL FOR BRIBERY

CHICAGO, May 5.—Officers of the Chicago Federation of Labor today began raising funds for the financial aid of Clarence Darrow, the attorney who defended the McNamara brothers in Los Angeles, and who will soon face his third trial for bribery. The attorney's friends declare he is penniless as a result of his two trials.

Walter L. McDermott in Jury Reform Fight

TRENTON, N. J., May 5.—On the eve of the meeting of the legislature in special session for the purpose of passing or defeating the jury reform bill favored by President Wilson the

WALTER L. McDERMOTT

attack made by Assemblyman Walter L. McDermott of Hudson county upon the president was still talked about. McDermott heckled the president when the latter spoke in Jersey City for the reform measure and practically defied him. The twelve members of the assembly delegation from Hudson county decided that they would stand by a jury reform bill offered by McDermott. It provides for a referendum on two propositions, one to have the list of grand and petit jurors selected by the sheriff, subject to the correction of the presiding supreme court justice, and the second to have the list prepared by two jury commissioners named by the supreme court justice. The argument of McDermott and his adherents was that whichever scheme of these two was adopted would be an improvement over the one now obtaining and that an opportunity would be given the people of the state to decide whether or not they wanted the sheriff to retain his present powers or whether they desired the judges to have more power.

Gets Light on Banking and Currency

WASHINGTON, May 5.—Senator Gilbert M. Hitchcock of Nebraska, a democratic member of the currency committee of the senate, is already receiving many answers to the series

U.S. SENATOR G. M. HITCHCOCK

of questions which he sent out in behalf of the committee for the purpose of finding out exactly what the bankers and financial experts of the country wanted done in the way of banking and currency reform. If the tariff bill is passed early enough it is likely that the currency question will come up for action. As an evidence of their desire to expedite legislation on currency subjects a subcommittee of the currency committee was appointed to formulate a list of questions. This subcommittee is composed of the chairman, Senator Owen of Oklahoma, and Senators Hitchcock of Nebraska, Shafroth of Colorado, democrats, and Bristow of Kansas and Weeks of Massachusetts, republicans. The subcommittee was instructed to report to the full committee soon.

## The easy Resinol way to stop skin troubles

The soothing, healing medication in Resinol Ointment and Resinol Soap penetrates the tiny pores of the skin, cleans them of impurities, and stops itching instantly. Resinol heals eczema, rashes, ringworm, and other eruptions, and removes disgusting pimples and blackheads quickly and easily, when other treatments prove worse than useless.

Resinol is not an experiment. It is a doctor's prescription which proved so uniformly successful for skin troubles that it has been used by other doctors all over the country for eighteen years. No other treatment for the skin now before the public can show such a record of professional approval.

Practically every druggist, large or small, sells Resinol Ointment (50c and \$1) and Resinol Soap (25c), but you can test them at our expense if you prefer. Send to Dept. 17-S, Resinol, Baltimore, Md., for liberal samples and the two new Resinol booklets.

Relieved eczema instantly  
Philadelphia, Pa., March 25, 1913: "Resinol has surely been a friend in need to me. I had eczema on my face. It was in the form of a rash. I used many treatments, without any results. I tried Resinol Soap and Resinol Ointment and it gave me instant relief, and very thankful I was, for my whole heart felt like it was a cure. I told the doctor about Resinol and he highly recommended it and told me to continue its use. I am now completely cured of that dreadful disease after using only about four jars of Resinol Ointment and washing with Resinol Soap." (Signed) Miss Caroline R. Laughlin, 111 Pleasant St., Mt. Airy.

# OPENED SAFE WITH PICK AXE

\$2000 in Cash Taken  
From Boston Ticket Office

Safe Weighing 3800  
Pounds Was Almost  
Demolished

BOSTON, May 5.—Nearly \$2000 in cash was stolen from the office of the Colpitts Tourist and Ticket Agency at 333 Washington street yesterday morning by burglars who broke into a "burglar proof" safe with a pickaxe.

The robbery was discovered by Clarence C. Colpitts, who with his brother, Stewart A. Colpitts, conducts the business, when they went to the office on the second floor of the building yesterday forenoon at 11:30 o'clock.

The safe, weighing nearly 3800 pounds, was almost demolished. Near by lay an ordinary laborer's pickaxe marked "C. C. Co." and two carbide light tanks. Drawers containing nearly 6000 in mileage tickets had been hastily drawn from the safe and lay scattered over the floor. The cash drawer, which had contained \$1810 in bills and about \$100 in silver Saturday night, lay on the floor quite empty save for four Canadian quarters, which the particular pickaxe burglars had evidently scorned.

Although at least \$2000 worth of the railroad and steamship tickets, which were in the safe and had been scattered about by the burglars, were negotiable, none was found missing when the Colpitts brothers finished checking up their stock yesterday afternoon.

Colpitts brothers notified police headquarters of the burglary upon arriving at their office.

## 14 WOUNDS IN HIS BODY

Neighbor is Charged  
With Assault

GLOUCESTER, May 5.—William Johnson of Willow street, was found lying on the floor at the home of a neighbor, Charles Openi of Willow street, with 14 knife wounds in his body, by the police early yesterday morning, when they were summoned to the house by a telephone message.

Openi was arrested on a charge of assault with a dangerous weapon upon his friend, and the wounded man was taken to his home, where it was said last night his condition is serious.

The police allege that the men quarreled after they had had several drinks together, and that Openi pulled out a jack-knife during the fight.

He is alleged to have felled Johnson and after kicking him and beating him with his hands he jumped upon his prostrate body and hacked him with the knife. Some of the wounds were deep, but the majority of them only penetrated the skin.

His clothing was ripped and torn where the knife blade had been thrust.

## GRUESOME FIND

BODY OF JOHN MARONEY FOUND IN  
CONCORD RIVER

Man Had Been Missing From Home  
Since Last Tuesday—It Is Believed  
Death Was Accidental

The mysterious disappearance of John Maroney, aged 41 years, of 169 Quebec street, was explained yesterday, when his body was found floating in the Concord river opposite Whitworth's boat house in Billerica street. Undertaker Higgins was notified and the body was removed to his morgue.

Maroney left home last Tuesday night and visited a sister in Whipple street. He left there shortly after 9 o'clock, apparently going to his home, but he has not been seen since. It is believed that he lost his way and stumbled into the river.

Deceased is survived by his wife, Della; four sisters, Mrs. James Ashley of this city, Mrs. Patrick Droney of Cambridge, and Mrs. John Lynch and Mrs. Austin Furlong of Norwalk, Conn., and four brothers, two of Wisconsin and two of Ireland.

# JAPAN WANTS NEW TREATY

Land Question

Reports State Japan  
Should Demand Nat-

SAN FRANCISCO, May 3.—Comment in official circles in Tokyo and among the newspapers there indicate a desire that the Japanese government at once seek a new treaty with the United States on the question of land ownership and the like could be specifically settled. This statement is contained in a despatch, published today in the Japanese New World, a morning paper here from its Tokyo correspondent. The correspondent added that Prof. Takahashi of the Imperial university of Tokyo had issued a statement holding that Japan should demand at once the right on naturalization in the United States as the only way of solving the problem.

## MAKES DEAD HEART BEAT

Doctor Claims Magnetism  
Passes From Hands

PARIS, May 5.—Dr. Henry Durville, whose feats of mummification and preservation of animal and vegetable bodies by the magnetism that passes from his hands, are attested by well-known physicians, now asserts that by similar passes he has been able to extend in an extraordinary way the results obtained by Dr. Carrel in preserving life in the detached parts of living organisms.

According to Dr. Durville he has succeeded in keeping a frog's heart, immersed in a seven-tenths of 1 per cent. solution of salt water, beating for 24 hours and more by "magnetizing" it with passes from time to time. In this way, he says, he has also succeeded in making the hinder part of a frog respond to an electric current 15 days after killing the animal, three days before the extreme limit under normal circumstances.

He further states that he tested his theory with two frogs' hearts. One of these which had ceased to beat he put in a magnetized serum; the other still beating, was immersed in an ordinary serum. At the end of several days the magnetized heart began to beat and continued to beat at the contact of an electric current, while the other was completely dead.

Dr. Durville began his experiments with a study of the effect of magnetism on microbes and says he is able to stupefy or even kill cholera bacilli. He says also that he has completely mummified a human hand by passes.

## FOUND UNCONSCIOUS

James J. O'Neil Died at Hospital on  
Saturday Night After a Brief Ill-  
ness

James J. O'Neil, aged 55 years, died at St. John's hospital Saturday night, shortly after being removed there from his room in Agawam street, where he was found unconscious late in the evening. Death was due to natural causes.

Deceased who was employed at the U. S. Cartridge Co.'s plant, worked all forenoon and when he returned to his home he seemed in the best of health. Later he went to his room and was not seen again until supper time, when someone went to his room to call him for the evening meal. He was found by the young man, given several beatings, in which his nose was broken, knocked senseless and robbed of a gold watch valued at \$30, a stickpin valued at \$50 and a diamond ring worth \$400.

The men taken into custody yesterday were Charles S. Sullivan, 23, claiming to live at 725 East Third street, South Boston, and William R. Moore, 24, who says he lives at 222 E. street. Detectives Dorsey and Mitchell of the bureau of criminal investigation and Patrolmen Waugh and Shriker of the City Point station went to Springfield yesterday and brought the prisoners back.

# FOR MEMORIAL DAY

Many Civic Bodies to  
Appear in Line

WHOLE FRENCH REGIMENT WILL  
TURN OUT

The Veterans Desire to Interest Young  
People in Work—Memorial Sunday

Mr. George Worthen, who at the recent convention of the organizations of veterans was elected chief making of the Memorial day parade, is making rapid progress in the arrangements and as far as can be judged from present indications, the parade and general observance will be one of the largest and most complete ever witnessed in Lowell.

An entire regiment of French volunteers, comprising several local companies as well as others from Haverhill, Nashua, Lawrence and Fitchburg, has announced its acceptance of the invitation to take part in the procession and will be among the most prominent bodies in the line. Capt. Bergeron of this city is said to be in a large measure responsible for this remarkable augmenting of the parade.

Among the others who have already been invited, or who will at an early date receive such invitations, are the four companies of state militia at the local armory, and the well-known undoubted by he in line, the Wolfe Tane Guards, Sheridan Guards and Meagher Guards, the high school regiment, O. M. I. Cadets, Boy Scouts and others. It is expected that nearly all of these will accept the invitation and augment the ranks of the paraders. The high school regiment and the O. M. I. Cadets will in all probability be accompanied by their respective drum corps.

The principal figures in the Memorial day procession will of course, be the veterans who comprise the G. A. R., the Spanish War Veterans, and the Sons of Veterans. The G. A. R. alone will have two bands and the older men who are feeble or crippled will ride in carriages.

This parade will form at the South common and according to the schedule will start from there at about four o'clock in the afternoon. It will be reviewed at city hall by the members of the city government. The line of march as far as it has been determined will be Thorndike to Middlesex, to Central, to Merrimack, to Moody, over Cabot or Tremont streets and return over a part of the route. Mr. Worthen, the chief marshal, stated to a Sun representative that to his mind it will be the largest parade of its kind held in Lowell for many years, and that it is the first time that a whole regiment has signified its intention of taking part.

Beginning at nine o'clock in the morning the usual ceremonies at the various cemeteries will be held under the direction of Captain Lucius A. Derby of the Sons of Veterans. Representatives of each of the veteran organizations, the three G. A. R. posts, the Spanish War Veterans and the Sons of Veterans will make the rounds of the burial grounds in automobiles, conducting the memorial services for the dead soldiers and decorating the graves with flowers and flags.

Following the parade, there will be camp fires held at all the posts and other organizations with addresses and reminiscences appropriate to the occasion. Memorial Sunday will be observed by services at the First Congregational church on May 25 when the G. A. R. posts and other veteran bodies will be invited to attend. The sermon will be delivered by the pastor, Rev. Mr. Newcombe.

## LIGHT ON BOLD HOLDUP

Two So. Boston Youths  
Were Arrested

BOSTON, May 5.—The arrest of two South Boston young men in Springfield by the Boston police yesterday brought to light a daring holdup and robbery at Longwood and Brookline avenues, Roxbury, on the night of April 11. The victim was Louis A. Crawford of 335 Longwood avenue. He was attacked by two young men, given several beatings, in which his nose was broken, knocked senseless and robbed of a gold watch valued at \$30, a stickpin valued at \$50 and a diamond ring worth \$400.

The men taken into custody yesterday were Charles S. Sullivan, 23, claiming to live at 725 East Third street, South Boston, and William R. Moore, 24, who says he lives at 222 E. street. Detectives Dorsey and Mitchell of the bureau of criminal investigation and Patrolmen Waugh and Shriker of the City Point station went to Springfield yesterday and brought the prisoners back.

They were arrested following information sent to police in Springfield by Chief Inspector McGarr. The third man is being sought. His arrest is only a matter of a short time.

Mr. Crawford, the victim of the robbery, was followed from Flood square, South Boston, by the alleged highway-men, according to the police.

## Pimpily? Well, Don't Be

People Notice It. Drive Them Off  
With Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The pimples will vanish after you have taken the tablets a few nights. Nothing ever cleansed the blood, the bowels and the liver like Olive Tablets. Olive Tablets are the only successful substitute for calomel—they oil the bowels; there's never any sickness or pain after taking them.

Olive Tablets do all that calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a dark brown taste, a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are made of pure vegetable compounds mixed with olive oil. Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Try them. Take one nightly for a week. Then look at yourself in the glass and see how you feel. 10c and 25c per box.

## CROWD FIGHTS POLICE

A Big London Gathering  
Ends in Riot

LONDON, May 5.—Wild scenes of disorder occurred yesterday in the demonstration in Trafalgar square under the auspices of the Free Speech defense committee. The police tried to prevent speeches from the Whitehall side of the plinth of the Nelson column, and only the intervention of James Kier Hardie, socialist and independent member of the house of commons, who was chairman of the meeting, prevented a serious conflict.

As it was, the disorder, many times culminating in fistfights between the crowd and the police, continued for almost two hours.

By the time the marching socialist, labor and other organizations, with bands playing the "Marseillaise," reached Trafalgar square, 20,000 persons had gathered there and as many more in the surrounding streets.

Permission to hold a meeting was given at the last moment, on the understanding that no suffragettes should be allowed to speak. Unable to secure permission to march as an organization, the supporters of the Women's Social and Political union marched with the dockers, their colors flying, preceded by a huge banner inscribed, "Where there's a will there's a way." Flags of the Women's Social and Political union were hoisted on the plinth from which they waved continuously during the meeting.

The trouble started when a socialist speaker began to address the crowd from the Whitehall side of the column.

## PSYCHOLOGY AND JOBS

Former Plays a Prominent Part in  
the Various Plans for Vocational  
Guidance

Are you looking for a job as motor-man? Prove your ability by psychology. Will you make a good chauffeur? Submit to a mental test and find out. Would you be a successful telephone operator? You will save the company's time and your own by undergoing a psychological examination to determine your fitness for the position. Psychology plays a prominent part in the various plans for vocational guidance currently reported to the United States bureau of education, by means of which scientists hope to devise ways of measuring people with regard to their qualifications for certain kinds of work.

Dr. Leonard P. Ayres, of the Sage Foundation, has just summed up a number of psychological tests for positions actually put into practice in modern industry. Thus the American Telephone and Telegraph company engaged Prof. Munsterberg to introduce a test for determining which applicants were likely to prove good telephone operators. The girls were examined with reference to "memory, attention, general intelligence, space perception, rapidity of movement, accuracy of movement, and association." The results showed that the girls who qualified in the tests were the most efficient in practical service, while those who stood at the foot of the list failed later and left the company's employ.

Prof. Munsterberg has also tested street-car motormen by elaborate apparatus, with a view to selecting those

## THE SMOKE NUISANCE

Perhaps no public nuisance has been more persistently assailed for years by the press and people of this city than the smoke nuisance and few grievances have been more deserving of general condemnation. It is therefore a matter for general rejoicing that Mr. Charles Riley, the newly appointed smoke inspector, has so successfully set out to require the cooperation of the mills in eliminating the evil as far as possible. Still more full of promise is the spirit of friendly public service manifested by those who have already improved conditions in their respective plants, and those others who so readily promise a speedy improvement.

Lowell has suffered from the smoke nuisance particularly because of the fact that the belching chimneys are not located in any one section of the city, or grouped in any order. They are pretty evenly distributed and no section of the city is free from their contaminating and unhealthy influence. To realize the extent of the grievance one must go to some commanding altitude such as the summit of Fort Hill, or to the top of the new Sun building, and see the volumes of smoke constantly ascending, and forming a cloud of vapor which hangs over the city and its people. When the atmosphere is heavy or moist this smoke laden pall hangs low and is breathed in by thousands, to their discomfort and ultimate physical disadvantage.

As yet, though strong claims have been made by inventors, the complete elimination of smoke from factories does not seem possible, but there are several modern appliances which reduce the necessary emissions to a minimum. Such improvements have been adopted by some of the larger mills, and are about to be installed at the Merrimack corporation and the Saco-Lowell shops. This is grateful intelligence, and the people will give ready credit to the new smoke inspector and those mills which have set so salutary an example. Now that the matter is so well begun let it continue unchecked until the fair face of heaven may smile above us in unveiled brightness.

## PARK REPAIRS

The suggestion of the mayor that the park commissioners submit to the municipal council an estimate of the cost of such necessary repairs as the construction of new walks on the common, is a wise and timely one, and no time should be lost in acting on it. The season when parks are more beneficial to the people and more generally patronized is at hand, and all necessary repairs should be rushed, so as to be of advantage to the thousands who are ready to profit by them in a short time. The preservation of our present parks is as important as park extension, and the homely old proverb that "a stitch in time saves nine" has a logical application to this very necessary phase of the park commissioner's work.

The mayor, in his communication, reiterates his statement that he is in favor of park development and extension by the systematic annual expenditure of money. This, too, is the public view, and although the needs of some of the parks may now call for a greater appropriation than it is found convenient to make, the city must eventually adopt a more liberal policy towards park expenditure, if the commissioners are to make the most of those parks already in existence, not to mention the future opening up of others in sections where parks are now undeniably much needed.

Another matter that will have a direct bearing on the future of our park system, is the election of park commissioners to take the place of the two distinguished members of the board who have recently resigned. It is most important that men be elected who are qualified for the work by experience and breadth of view, men who can give freely of their time, for the position is one that will offer vast possibilities for faithful public service to the right individual. No consideration other than interest for the work should influence any member of the municipal council in choosing from aspirants to the post commission.

## LARGER, LIVELIER, LOVELIER LOWELL

Some of the most important cities of this country have made a very fortunate choice of alternative activities, either to typify their good qualities or to set an ideal standard for which all their good citizens were expected to aim. Recently a desire has been expressed locally to describe what our city boasters desire for the future of this city. We all know of the cry for a "bigger, better, busier" Lowell. Why not strive for a "larger, livelier, lovelier" Lowell?

A "larger" Lowell can be secured by

the enterprise of our citizens in investing their money locally, and by making it possible for out of town manufacturers to come here and to open new enterprises. A necessary aid to this is city booming. Let us all forget and forgive our minor faults and shout our virtues from the house top.

A "livelier" Lowell can be born of the industry of our inhabitants and the creating of better relations between the employer and the employed. Cities and towns whose names are linked with continual labor disturbances are handicapped in their growth. It remains for us, therefore, to take an interest in the thousands of our workers, extend to them the helping hand, and save them from the dangers of false leadership.

A "lovelier" Lowell will rise as it by leaps out of the present city. If we all cultivate personal responsibility and civic pride. An awakened desire for beauty will urge householders and citizens generally to do all they can in adding the general plan for neat homes, beautiful buildings, clean streets, and beautiful parks.

Let us remember the three adjectives. Let us strive for what they typify. If we do it will not be long before we have the gratification of seeing this good old city really grow into a "larger, livelier, lovelier" Lowell.

## THE RAILROAD HEARING

The inquiry into the affairs of the New York, New Haven and Hartford railroad company is shedding a hard light on many things which have until now been misunderstood.

The most violent attacks have been made on President Mellen by Louis D. Brandeis, as the paid assailant of the company, its policies and business. So violent were the charges that President Mellen appeared at the inquiry before the interstate commerce commission as a voluntary witness.

In his testimony Mr. Mellen did much to dispel the suspicions which had been cast upon his management, and his minute and honest testimony has gone far towards clearing up the calumnious charges impugning his management and the sincerity of his motives.

At the hearing Saturday Mr. Brandeis was folled at every point when he tried to substantiate some of the worst charges that he has been making in the press against the management of the Boston & Maine as well as against the New Haven system. It was this fact that led Mr. Choate of counsel for the New Haven to rise in the presence of Mr. Brandeis and inform the presiding commissioner that over an hour had been wasted on vague and groundless insinuations. The same exhibition of Brandeis' tactics enabled Lawyer Rich to make a very effective onslaught on the critics of the Boston & Maine management. It cannot at this stage be predicted just what the outcome of the inquiry will be, but one thing certain is, that very little foundation has been shown for even one-twentieth part of the charges made by Brandeis and other critics of President Mellen and his progressive policies. It is quite probable, however, that after the inquiry is over, Mr. Brandeis as the Nemesis of the New Haven management, like Othello, will find his occupation gone.

## MAYOR O'DONNELL COMMENDED

Mayor O'Donnell and the police department, of which he is the official director, deserve great praise for the manner in which the I. W. W. parade was suppressed and the projected demonstration kept strictly within the bounds of the law Saturday afternoon. The national leaders of this revolutionary organization found they could not hold a parade in Lawrence and so they selected this city, believing that they could come here with their bands, their red flags and their collected forces to stir up the city and cause industrial strife. They were completely blocked in their intentions and so far as the general public was concerned, nobody would realize that Messrs. Ryan, Haywood and Giovannitti had arrived in the city or that an I. W. W. demonstration was in progress. That demonstration was confined strictly to the South common, and even there the speakers and members generally took particular care to observe the letter of the law, realizing that the slightest breach would be a signal for their arrest and judgment at the police station. The affair of Saturday has given the people of Lowell the assurance that no insubstantial element, either local or otherwise, can carry on any public demonstration against the orders issued by the police department to prevent any illegal or revolutionary demonstration along our public streets.

## EDITORIAL COMMENT

### Traffic Regulations

Lynn Telegram: Conditions in different cities vary. Consequently, regulations must be made to meet them. In the large cities where there are usually no narrow streets in the business section, there has been no need of the "one-way street." Boston found that it had so many narrow streets that it was necessary that it was necessary that vehicles should only travel in one direction on any of these streets. The plan has met with good success.

### Woman's Mission

Worcester Telegram: Mr. Bryan did his best with the Sacramento legislators and if he failed it was because failure was foredoomed. The secretary kept himself well in hand. People who have thought that he had no balance wheel must admit that this incident is totally inconsistent with their belief.

### Congressman's Gardener

Worcester Telegram: Congressman Gas Gardiner is not one who "wants little here below." He not only wants to succeed in his congressional career, but he also wants to become a successful gardener. He has a large garden at his home in Lowell, and he is still further professing to want to stand for "liberal" ideas in the party. It remains to be seen if there is room for him. There certainly is for the ideas.

### Children on Streets

Brookline Telegram: Even though warnings to children to be careful in using the highways of the city do go in one ear and out of the other, it may not be true in all cases. In some instances, warnings may cause them to stay put between and somewhat above the said ears.

### Cost of Living

Manchester Telegram: The high cost of living problem is all a part of the old days of the average family, on the farm or elsewhere, didn't eat California oranges or southern-grown garden truck or tropical luxuries. They lived on the products of the soil in their own community and only had fruits and vegetables when the season for them came around. The clothing was made from home-grown wool and the socks knitted in the home. Now if we want all things from all over the earth brought to our doors every morning on a telephone cord and delivered by automobile, we must expect to pay the price.

### Walking Straight

Fall River Globe: Anent the recent boozelike official dinner given by Secretary Bryan to the foreign diplomats, the Montreal Gazette is moved to remark that "if the statement of the United States talk as solemnly as they dine, the present regime should be a safe one, if their electors can keep them in line." That ought not to be difficult. They are likely to walk straight, if they take nothing stronger than grape juice aboard.

### Moving Day

Lawrence Telegram: The freedom with which the American transfers his home spot involves many losses. It tends still further to disintegrate family life, already much shattered by looser ideals of marriage and otherwise. At each abandoned hearthstone something is left behind. The scattered members of the family never feel that attachment to each other that formerly existed toward the old homestead.

# WAS IT THE WORK OF A FIRE BUG?

## Two Mysterious Fires Broke Out in Wigginvill—One Caused Damage of \$3000

The residents of Wigginvill are beginning to believe that there is a fire bug in their midst, and they probably have a good reason to fear that an incendiary is operating in that vicinity. For within a couple of days two mysterious fires broke out in the village. One did not amount to anything, but the latter which was discovered last night caused damage to the extent of about \$3000.

The first fire was discovered Saturday night shortly after six o'clock in a small storehouse owned by Burton H. Wiggins. The blaze was discovered in time and was soon extinguished, before any damage was done. Last night at about 11 o'clock another fire broke out in another storehouse owned by the same party, and only a short distance from the other storehouse. The flames were not discovered until it was too late to save the building.

An alarm from box 315 called the department to the scene, but when the

firefighters reached the place, the flames had made such headway that it was seen at the outset that the building was doomed. Starting at one end of the building the flames quickly ate their way along the walls until all four were a blaze. The roof was burning briskly, and as the flames burned through the beams supporting the walls and roof of the building, the entire structure caved in, the firemen barely getting out of the way in time. The sparks set another storehouse nearly on fire, but this was soon extinguished. The burned building contained a concrete mixer worth \$800, hoisting jacks, jack screws, a truck and many building tools of various kinds. The total damage, nearly all covered by insurance will be between \$2500 and \$3000.

The sheds are located near the end of Rockingham street, in an out of the way section where one would not expect a fire to start itself. The fire chief will make an investigation.

## 5 PULLED FROM WATERY GRAVES

## Canoeists Had Narrow Escape From Drowning

## Woman in Motor Boat Rescues Three—Police Save Two

BOSTON, May 5.—Three Waltham young men, Everett Mullen, 18, Joseph Patten, 18, and Walter McNeil, 19, were rescued from drowning in the Charles river shortly before 6 o'clock last evening by Mr. and Mrs. Marvle Kraft of 627 Columbus avenue, Boston, who pulled them into their motor boat when they found the boys clinging to the piling at Long Bridge.

Two Others Saved.

An hour before two other young men canoeists were saved from drowning by Patrolman William Elliott of the Metropolitan police who found them floundering in the water at the "Cuts" in Auburndale. They were taken to the police station in the officer's boat and after drying their clothing were able to go home.

Only the timely arrival of Mr. and Mrs. Kraft in their motor boat a few moments after the Waltham boys had been thrown into the river when their canoe overturned, saved their lives. Unable to swim ashore the boys managed to reach the bridge, where after several attempts to climb the piling they gave up and clung to the slippery poles. Their clothing, water soaked and heavy, weighed them down and gradually their hold loosened until they were in peril of slipping into the water.

## Climbing in Spiles

Very few canoeists venture as far as Long Bridge, Newton Lower Falls, so early in the season and the boys were in danger of drowning but for the arrival of the Krafts motor boat. Their chorus of shouts attracted the attention of Mr. and Mrs. Kraft and they were quickly pulled into the boat. They were taken to the park police station where they dried their clothing and rested and were later able to go to their homes.

## SUFFRAGETTES ON TRIAL

Charged With Conspiracy to Damage Property

LONDON, May 5.—The police court hearings against the suffrage leaders held under a charge of conspiracy to maliciously damage property were resumed at Bow street today. Several prisoners, including "General" Drummond, Miss Harriet Keir, Miss Agnes Black, Miss Beatrice Saunders, Miss Annie Kenney and the chemist, Clayton, had been held in custody since their last appearance and they were joined in the prisoners' enclosure today by Miss Laura Lennox and Sidney Drew, the printer, who had been released on bail. Archibald Bodkin, the prosecuting counsel for the treasury in opening the case described the law of conspiracy and said the defendants had been constantly meeting together. He referred to Mrs. Drummond as "a violent and unscrupulous woman." He said that Clayton, the analytical chemist, in whose possession were found documents describing a plan of campaign for burning down buildings in London had put his brains at the disposal of the women for carrying out crimes and producing what their own paper described as a "reign of terror" in London. From the comfortable seclusion of Paris Mr. Bodkin said, Miss Christabel Pankhurst had sent an article every week to the suffragette paper either commending what had happened during the preceding week or inciting to fury acts of militancy.

## LOWELL BATTED THREE PITCHERS

The Grays Won From  
Lynn in One-Sided  
GameMcCune, Halstein and  
Smoyer Shine—  
Score, 11 to 3

The Lynn ball tossers were at Spaulding park Saturday afternoon as guests of the Lowell representatives who whitewashed them Friday in their own town to the melody of 11 to 0. The beautiful state of the weather combined with the come-back of the home team was an incentive for approximately 3,000 people to flock to the grandstand and bleachers at the scene of the battle, and Manager Gray's boys were accorded a hearty reception when they trotted upon the field.

The game by innings:

**First Inning**  
Orcutt hit to Smoyer who threw to Halstein, sailing the runner, Erhard fanned and Strands hit safely over Smoyer's head. Wilson then connected with Weaver's cross fire for three stations and Strands crossed the plate for the first tally. Boardman hit safely through the pitcher's box and scored Wilson. He stole second. Flaherty was passed and then Neptune, Lynn's Indian short stop grounded to Smoyer who threw to Miller fending out Flaherty.

Clemens, the first Lowell man up, nipped a fly to Daum and retired. Magee was given a rousing reception as he stepped to the plate and he responded by slamming the ball to left field. Strands misjudged the flight of the sphere and it went over his head. McCune going to third and Magee scoring. Halstein's sacrifice fly to center field scored McCune and the tally was even. Miller hit safely sending a hot one through the pitcher, stole second and was on his way to third in an attempt to steal when Dee had the third strike called on him.

Score: Lynn, 2; Lowell, 2.

**Second Inning**  
Weaver passed Daum and Pfeffer grounded to Halstein who put him out unassisted. Smoyer stopped Orcutt's grounder and threw to Dee, catching Daum between second and third. Dee made the put out, receiving Smoyer's throw, but Dee's throw to second was just a second too tardy to catch Orcutt. Erhard hit a hot one to Miller who handled it nicely and got the ball to first in plenty of time for Halstein to retire the side with the third put out.

Smoyer strided and Monahan was sent away. Erhard hit to Wilson. Smoyer going to second. Weaver fled out to Wilson. Neptune fumbled Clemens' grounder for a second and then threw to first. Although it appeared that the Lowell runner beat the ball by a yard, he was called out.

Score: Lynn, 2; Lowell, 2.

**Third Inning**  
Weaver allowed Strands to walk to first and he went to second on a sacrifice bunt by Wilson, who was thrown out. Monahan to Halstein. Boardman died, Dee to Halstein and Flaherty after hitting a number of fouts, fanned.

This inning netted the home team three runs as follows: Magee the first man up walked and McCune singled over second. A three-bagger by Halstein scored both of them, the ball going along the third base line. Strands caught Miller's high one to short left, Halstein fled third. Flaherty scored when Dee went out. Neptune to Wilson. Smoyer was passed but Monahan fled out to Orcutt.

Score: Lynn, 2; Lowell, 2.

**Fourth Inning**  
Maybom went in to do the twirling for the local team at the start of the fourth inning. Neptune hit to Dee who threw him out to Halstein and Daum was retired. Smoyer to Halstein. Pfeffer fled out to Magee.

Maybom walked his first time at bat and Clemens was used likewise, advancing Maybom to second. At this stage, Pfeffer was removed and replaced by Harrington and then Magee hit to Harrington who nailed Maybom at third. Magee safe on first. McCune hit a Texas league to short center field. Dee then made an error. Halstein hit safely to right field and went to second on an error by Flaherty who let the hit get by him. Clemens scored on the hit and Magee came home on the error. Miller who hit to Boardman was safe at first on the fielder's choice when Boardman threw to the plate, getting McCune. Miller stole second but Dee fled out to Wilson.

Score: Lynn, 2; Lowell, 2.

**Fifth Inning**  
Orcutt hit safely and Erhard hit an easy one to Maybom, who threw to first netting Halstein a put out. Strands stroled and Wilson hit to Maybom, who threw Strands out at second to Smoyer. Boardman out. Dee to Halstein. The latter making a pretty catch of the fielder's high throw.

Smoyer opened for Lowell with a hit and went to second when Monahan went out. Boardman to Wilson. Maybom walked for the second time. Clemens hit to left, scoring Smoyer and Magee hit to the pitcher, who retired Maybom by throwing to third. Magee safe on the fielder's choice. McCune out. Harrington to Wilson.

Score: Lynn, 2; Lowell, 2.

SMOYER  
Shortstop of Lowell Team

out. Smoyer slammed out a home run and in spite of the fact he fell down between third and the plate, beat out the throw home. He scored Miller. Monahan fanned.

Score: Lynn, 2; Lowell, 10.

**Seventh Inning**  
Douglas Smith went in to twirl for Lowell at the opening of the seventh. Only three batters faced him in the inning. Orcutt fled out to Magee. Erhard fanned and Strands fled out to Magee.

Smith fanned and Clemens walked. Magee fled out to Strands. McCune hit safely to right field and Halstein cracked one to center for his fourth hit, scoring Clemens. Miller hit to Neptune who threw to Erhard who put out Halstein.

Score: Lynn, 2; Lowell, 11.

**Eighth Inning**  
Wilson fled out to Magee and Boardman got a hit. Smith passed Flaherty, Neptune and Daum, forcing in Boardman. It was a bad exhibition of wildness. Scanlon fanned and Smith fanned Orcutt with three men on the bases.

Dee sent a high fly which Neptune smothered. Smoyer walked and was caught napping off first. Daly fanned.

Score: Lynn, 2; Lowell, 11.

**Ninth Inning**  
Erhard sent up a foul fly which Halstein pulled down in a fine catch. Strands popped one up to Smoyer. Wilson hit one to second and the ball rolled to Miller who fielded it to Halstein. Halstein, however, dropped the throw and the runner was safe. Boardman fled out to Miller.

**DIAMOND DAZZLES**

"Gone for a week," is the sign tacked up at baseball headquarters. The team will play their next home game here with Fall River one week from today. Lowell opens at Portland on Thursday and the event will prove a gala day for the Maine city.

Smoyer played his position to perfection Saturday and was there with the club as well. There is nothing so demoralizing to a team as poor work around the second cushion. The short stop is the man who takes the throw on a baserunner coming down from first and a player who is unreliable in this play will allow many bases to be stolen in a game. Smoyer's home run in the sixth was some clout.

There has been a great deal of discussion about changing the starting time of the Saturday games played here. It seems that a great many fans would like to see the games, especially those on Saturday, commence at 2 o'clock instead of three. Those fans contend, and wisely, that an earlier start would draw a larger attendance for the reason that the game would be over at an hour which would prove much more popular with the housewives and boarding mistresses. There is ample time between the hour when those who have a half-holiday Saturday quit work and two o'clock for all who intend to see the game to reach the park for the call of play. It would seem a wise plan for the Lowell management to take this revision under serious consideration.

Halstein is the smoothest working first sacker that Lowell fans have seen perform in years. Many thought that Manager Gray had made a mistake when Ed McGamwell was sold to Bridgeport but they have changed their opinion since watching the ex-Vermont university player perform this year. It's a cinch that he will not long remain in this league if he keeps up the pace he is traveling now.

DeGroff may have to hustle some to hold down his berth on the team if McCune goes along the way he did Saturday. DeGroff is overweight at present but when in his best form could never be called a fielder. That he can hit the ball and hit it hard there is no question but if the Rubbs ever falls down much below an exceptional batting figure his days of New England baseball are numbered. DeGroff tried a holdout stunt on Manager Gray this year and did not sign his contract until noon on the day of the opener with Portland. With Burns in the local camp at the time it is needless to say that the rightfielder did not receive an increase in his pay envelope.

Umpire White did not prove a very popular decision maker. He acted Saturday as though he was umpiring his first game and was too nervous to use good judgment. He was away off on ball and strikes as well as on the bases.

**JAKE STAHL IN HOSPITAL**

**Red Sox Manager to Undergo Operation**

BOSTON, May 5.—Manager Jake Stahl of the Red Sox was removed to the Corey Hill hospital, Brookline, yesterday, with the object of being operated on for the trouble in his left foot, which has prevented him from getting into the games played by his team since the season started.

An X-ray examination made yesterday revealed a bony growth in the foot which caused intense pain to Stahl whenever he attempted to walk. The trouble dates back to the period of the training season, when Stahl first noticed but paid no attention to it until the pain became so intense that he was obliged to give up playing.

He will be operated on today. Stahl will be compelled to remain at the hospital for about two weeks.

TEXTILE WINS AGAIN  
Defeated the Museum of  
Fine Arts Team

Lowell Textile school defeated the baseball team from the Museum of Fine Arts of Boston Saturday. While their opponents outthrew Lowell's pitcher, the Textile boys were effective in the pinch. The game was very loosely played, 15 errors being the total of misplays made during the contest. The score:

## AMATEUR BASEBALL

The New Yorkers are a strong aggregation of 13 year old baseball players who stand ready to challenge any team of their own age in the city. They will play them on their own grounds or travel to any other diamond provided that half their travelling expenses are met by the home team. Send all challenges through this paper or to John Delaney, 57 Stanley street.

Walter Hickey, manager of the Hickey Dicks, challenges the world at a game of baseball for any team with an age limitation of 13 years. This team is some team and is playing faster ball as the season progresses. Their lineup, as announced by the manager, is as follows: Brady, c; Teague, p; Delaney, 3b; Huslam, 1st; Murray 2d; Cohen, 1b; Spaulding, 2b; Garvin 3b; Cox 2b; Doyle ss; Cox rf; Mullin lf; and Frarm cf.

The Fulton Street Stars are out after the scalps of all 11 year old teams within the city limits and will even go outside the city if their expenses are paid. This goes for any and all teams. The lineup is as follows: McDougall c; Mullin p; Spaulding 2b; Garvin 3b; Cox 2b; Doyle ss; Cox rf; Mullin lf; and Frarm cf.

The Lowell Newshaws have a great team this year and expect to graduate several of their star players into organized baseball before the close of the season. Their age limit is 13 years. The lineup is as follows: Brady c; Cohen 1b; Delaney 2b; J. Delaney 3b; Scullion p; Murray lf; Huslam ss; P. Brady cf, and C. Huslam rf.

The Tigers of North Billerica won their third straight victory of the season Saturday afternoon at the Colonial Theatre. Their age limit is 13 years. The lineup is as follows: Brady c; Cohen 1b; Delaney 2b; J. Delaney 3b; Scullion p; Murray lf; Huslam ss; P. Brady cf, and C. Huslam rf.

The T. B. & T. baseball team of North Billerica played the first home game of the present season Saturday afternoon at Faulkner park. The Billerica boys had no trouble in winning and held the lead during the nine innings. The score was 10 to 5.

## NATIONAL HORSESHOW

Was Opened in New York Today

NEW YORK, May 5.—Long before the bugle blew for the first event today at the national horse show the ring and the surrounding turf were scenes of activity. Virtually all the thoroughbreds were being put through their paces before facing the judges and a number of society women were in personal charge of their entries. The weather was all that could be desired.

AUSTIN IS THE MAN WHO HAS  
PUT THE PEP IN ST. LOUIS

ST. LOUIS, May 5.—George Stovall, manager of the St. Louis Browns, is singing the praises of Jimmy Austin, his scrappy infielder. Stovall says that Austin has developed into one of the best third basemen in the American league. To Austin belongs the credit of putting the pep into the Browns this season. Jimmy is known as one of the scrappiest players in Ban Johnson's organization. He is also a speed merchant on the paths and a good batter. Three years ago Austin was considered not good enough for New York Americans and was traded to the Browns.

The Honey Boy Minstrels held a regular meeting yesterday afternoon at 2 o'clock in their rooms in the Colonial Theatre building, Middlesex street.

After approving the records it was voted to sever the joint offices of treasurer and business manager and elect two officials. It was voted that Joseph Carroll be chosen business manager, and that Charles Sadler be chosen treasurer. It was voted to have a meeting of the four officers of the club two weeks hence at 2 o'clock, to wit: President Shuerbe, Treasurer Sadler, Business Manager Carroll and Secretary Carey to confer on plans regarding the personnel and management; also that this board shall meet monthly regularly. Two vocalists were added to the troupe on proposition by the newly chosen business manager. It was voted to have a summer camp during the hot weather as indoor meetings were not feasible. After this the meeting came to a close by rendering a popular overture.

LOWELL HIGH DEFEATED  
Local Team Outclassed  
by St. John's Prep.

Lowell high was distinctly outclassed Saturday when they encountered the St. John's Prep school baseball team of Danvers. St. John's showed their superiority in every department of the game, and defeated the local schoolboys by the score of 21 to 4. The game was very poorly fielded on both sides, Lowell having 11 errors chalked up against her team. Carter, Cawley, Bailey and Gill played Lowell's whole game. The score:

## TWO MISSIONS WERE CLOSED

Two Weeks' Mission at St. Margaret's a Great Success

Women's Mission at St. Michael's Closed—Men's Opened

With impressive services in the pretty little church of St. Margaret's in the Highlands, the solemn closing of the mission for the men of the parish, held under the direction of the Rev. Fr. Turner, took place last evening at half past seven. The attendance was very large and the reference of each to the salvation of all. During the beginning of the discourse Rev. Fr. Turner took occasion to congratulate the men on the success of their retreat and to express his appreciation of their cooperation with the priests in the work. Such spirit, he said, will have its reward.

In concluding, he impressed upon his congregation the fact that the mission as a matter of fact is a failure if it serves merely to enlighten and strengthen them for a short time, and if after, say a few weeks they yield again to temptation and forget all their good resolutions. The results of the mission are the prime essentials and the retreat is intended to keep the people in the righteous path constantly after its close.

Benediction followed the sermon and the congregation received the papal blessing. This morning, Rev. Fr. Turner celebrated a mass for the clergy and members of St. Margaret's parish. Rev. Fr. Nolan left for Brockton in the afternoon and opened a mission there last night, while Rev. Fr. Turner went to Lincoln, N. B., today.

Tonight there will be a meeting of the members of the parish to form plans and make the preliminary arrangements for the lawn party which will take place in June. A general man-

ager and other officers will be chosen at this convention.

St. Margaret's parish, if judged by the recent mission and its general activities, is certainly prospering.

**Domestic at St. Michael's**

The Dominican Fathers, who have been conducting the mission at St. Michael's church, brought to a close the retreat for women which has been occupying the past week. The closing was observed with a double service, yesterday afternoon, the first at 2 o'clock being for the married women and the next at 4 o'clock for the young ladies of the parish. Both were very largely attended.

Throughout the week the magnificent attendance had necessitated double services, both the upper church and the basement being crowded nightly. The fathers were frank in their expressions of admiration for the interest and perseverance of the congregations.

The closing service was most impressive. At 2 o'clock the married women gathered at the church and listened to an eloquently delivered and thoughtful sermon on perseverance by Rev. Fr. Higgins, in which the preacher exhorted them to a continuance of the faithful practice of their religion throughout their lives, letting the teachings of God, through his priests, remain perpetually with them, guiding their action and making certain their salvation. He emphasized the fact that for some it might be the last mission, the last occasion on which they shall receive such a call from God, and consequently impressed upon them the necessity for perseverance. At 4 o'clock in the afternoon the young women of the parish gathered in large numbers at the second of the services in the solemn closing, and the sermon was preached by Rev. Fr. Clark along similar lines. Both services were concluded with benediction, and the blessing of the pope was conferred upon the congregations.

In the evening at half past seven the church, sanctuary, vestibule and vestry were filled with a great multitude of the male members of the parish, who came to attend the opening of their week's mission. The sermon of the evening was delivered by Rev. Fr. Higgins, and the preacher dwelt upon the life of Christ as the example to be followed by men in the practice of their religion and working out their salvation. He related the story of how Christ defeated the devil in the temptation on the mountain and how he then died that he might redeem men who had fallen into sin. He briefly outlined the life of the Saviour, which he said is the great example of men for the salvation of their souls. Rev. Fr. Mullin celebrated benediction, and the service closed with congregational singing.

A three days' retreat for the children of the parish opened this morning at the church at 7 o'clock with a mass and instruction. There will be a mass this morning at 7 o'clock and instruction in the afternoon. This retreat will close on Wednesday.

## WELCOME KING OF SPAIN

Alphonse to Arrive in Paris Wednesday

PARIS, May 5.—The coming visit to the French capital of King Alphonse of Spain, who will arrive on Wednesday, is regarded as of considerable significance for Europe as it is expected it may mean the entrance of Spain into the friendly entente between France, Great Britain and Russia. The French government is making elaborate preparations for the reception of the king. The rooms which he is to occupy at the palace D'Orsay have been decorated with beautiful objects of art and the ambassador's hall, where he will hold a reception, has been hung with splendid specimens of tapestry brought from Louis XIV's favorite sitting room at Versailles palace.

# Pres. Gompers Goes to Jail

## GANG ARRESTED SATURDAY FINED PLANS READY FOR STATIONS

Sextette Apprehended by Three Officers On Tremont St.

One Who Assaulted Officer Fined and Sentenced

At the Boulevard Wells and the Cook Wells

The Stations Will Be Experimental and Quite Costly.

Officers Constine, Mahan and Cotte rounded up six members of a gang Saturday night that has been bothering the officers who patrol the beat on Moody street between Tilden and Tremont streets. It seems that on Saturday night in particular there are a number of men who refuse to either go home or change their lounging place after the barrooms have closed for the night and openly defy the officers.

On last Saturday night, however, the three officers already named decided to put a stop to this program. The customary gang that hangs around Tremont street was told to move on and when there was no response to the officers' orders things began to happen. Each officer grabbed two men and started with them to the box. Officer Mahan was in plain clothes but showed his badge to Manuel De Silva before placing him under arrest. De Silva had other notions in his head, besides going to the police station, it seems, and immediately gave battle to the officer, striking him a nasty wallop in the eye. The officer was also hit from behind, it is said, by Francisco Medeiros, Manuel De Sonnes, Manuel Valanti, Manuel Silva and Manuel Silva were the other four who were corralled by the two other officers. All of them were fined \$10 for drunkenness in police court this morning and De Silva, who assaulted Officer Mahan, was also given a suspended sentence of four months to the house of correction.

"As Ugly as Sin"

Sanford W. Putnam, a man whom Officer Clark testified to finding in a drunken condition on his way home from Billerica Saturday, was in court this morning. His father, an old man who resides in Wilmington, told the court that his son was perpetually drunk and that he was "as ugly as sin." The father testified that the defendant had knocked him down repeatedly when in a drunken temper. The court did not waste much time on his case but sent him away to the reformatory. He appealed.

Chewed Officer's Finger

James Davis, a young man who claimed Tynesboro as his home, pleaded guilty to the charge of drunkenness. Officer Drewett, who made the arrest, showed the court a finger which he testified the defendant had chewed upon while making an effort to escape. Davis, in spite of his youth, was given the maximum penalty, a \$15 fine. Was Fined \$15

## SENTENCE SUSTAINED

In Contempt Case Against Gompers, Mitchell and Morrison—Two Latter Were Fined \$500 Each

WASHINGTON, May 5.—The contempt of court judgments on Samuel Gompers, Frank Morrison and John Mitchell, officials of the American Federation of Labor, were sustained today by the court of appeals of the District of Columbia, which, however, revised the sentences to give Gompers 30 days imprisonment and fine Mitchell and Morrison \$500 each with no jail term.

The chief justice of the court dissenting, held that the entire judgment should be reversed. The lower court gave Gompers one year, Mitchell nine months and Morrison six months without option of fine. All were convicted of violating a court injunction in the noted Bucks Stove & Range Co. case.

An appeal from the decision today will be taken to the supreme court of the United States if attorneys for the labor leaders can find ground upon which to ask the highest court to review the judgment. On a previous appeal to the supreme court the judgment was effectively dismissed and the

party have no rings in their noses," he shouted. "They are not let around as the gentlemen from Washington has been for years in this body."

Mr. Murdock read a printed letter from a progressive county chairman in Wisconsin reading Rep. Lenroot into the democratic party and then caused some consternation by declaring that several members sitting on the floor as republicans had been elected as progressives by progressive votes.

Rep. Mann replied to Mr. Murdock, whom he characterized as a "free trader" for everything not produced in his district.

## 75 DETECTIVES ON CASE

### New York Police Declare War Today

GANG KILLED TWO OFFICERS AND INJURED OTHERS

One Gangster Killed and Other Probably Fatally Injured in Shooting Affray

NEW YORK, May 5.—The New York police today declared war on the gang men who killed two officers and beat up two others during the past 30 hours on the lower East Side. One gangster also has been killed and another probably fatally injured in shooting affrays. Seventy-five detectives were detailed to the case. The police believe that back of the shooting lies a struggle for the leadership of the Jack Sirocco gang, whose chief recently dropped out of sight. The two policemen were killed Saturday night by a gangster who had fatally wounded one of his rivals.

## MAJ. CROWLEY \$34,000 ORDER RECOMMENDED FOR BACK BILLS

For Postmaster of Lowell to Succeed Mr. Legare

By Dr. Coughlin of the Democratic National Committee

Two Park Commissioners Were Elected Today

To Succeed Judge Pickman and Thalles P. Hall

News reached this city today that Dr. John W. Coughlin, a member of the national democratic committee, had decided to recommend Major Robert J. Crowley of this city for the postmastership, to succeed Mr. Legare, resigned.

The announcement came through telegrams from Mr. Humphrey O'Sullivan to Hon. James B. Casey and J. Joseph O'Connor, Esq.

Mr. O'Sullivan had previously announced that he would preserve a neutral attitude in the contest but decided evidently later that he should recommend Major Crowley.

All the other candidates received letters today from Dr. Coughlin informing them of the action taken and stating that his friendly relations with Mr. O'Sullivan made it impossible for him to do anything different.

It is understood that in an interview with Mr. Casey, Dr. Coughlin stated that he would be guided entirely by the advice of Mr. O'Sullivan and then

ROBERT J. CROWLEY

when the latter had announced that he would not take any part in the contest, Mr. Casey and some of the other candidates were very much pleased.

Major Crowley attended the democratic national convention with Mr. O'Sullivan and was in close touch with the democratic leaders. Mr. O'Sullivan made a big fight for Dr. Coughlin's election and but for him somebody else might have been chosen for the committee. Mr. O'Connor was also at the convention as a regular elected delegate and he opposed Dr. Coughlin's candidacy, favoring Mr. McDonald of the state committee.

Mr. Casey, interviewed by a Sun reporter this morning, said that as a democrat, he did not see anything left for him to do in the matter as he has placed his candidacy in the hands of the postmaster-general in hopes that Mr. O'Sullivan would not endorse any particular candidate.

The matter is now up to the president and the postmaster-general.

SCHOOL COMMITTEE

Visited Some of the Schools Today—The Committee Members Will Continue Their Visits

The school committee is making an official tour of the schools. The committee visited about one-third of the schools today and they will continue their visits tomorrow and Wednesday. "The committee did not have anything in view except to visit the schools and look them over. Some of the committee had never visited the schools and it won't do us any harm to look the ground over and get acquainted," said Committeeman Campbell.

HAMBURG, Germany, May 5.—A new dreadnought battleship was launched here today to take the place of the old Kurfew Friedrich Wilhelm, sold to Turkey in 1912. The ship was christened Grosser Kurfurst by Prince Oskar, a son of the emperor.

## \$500,000 PLANT IN BUFFALO FIRED

### Chemical Works Destroyed—4 Alarms Sounded—Fireman Caught in Falling Walls

BUFFALO, N. Y., May 5.—The plant of the American Agricultural Chemical Co. at Lewis and Babcock streets was destroyed by fire today. The plant was valued at half a million dollars.

The fire began shortly after 11 a. m. and spread with such rapidity that within 15 minutes it was apparent the entire plant was doomed. Four alarms were sent in, calling half of the city fire department. Several hundred employes made a hurried exit and it is

believed that no lives were lost. The origin of the fire is unknown. Within half an hour of the time the fire broke out the east wall collapsed, burying a fire truck in the debris. Two firemen were caught by falling bricks and slightly injured. They were taken to the emergency hospital. The entire structure collapsed within an hour.

The company manufactured chemicals and fertilizers and was one of the largest concerns of the kind in the country.

## OFFICER SHOT, STRIKERS CLUBBED

### Serious Disturbance at Paterson, N. J.—When Officers Pulled Clubs, Rioters Fired

PATERSON, N. J., May 5.—The first serious disturbance in this neighborhood since the beginning of the laborers' strike occurred today in Paterson. A police man was shot in the leg, another was knocked down with a stone when the police dispersed a gang of 300 riotous laborers. The police used their nightsticks and the rioters suddenly began to shoot. Five of the latter, all badly clubbed were arrested. The strikers, who are members of the General Laborers International Union, walked out on May day and have put a stop to nearly all the outdoor work. The strike also involves laborers in districts of Long Island and Westchester county.

SPICY REPARTEE IN THE HOUSE

Repubs. and Progs. Exchange Dubious Compliments

"Prog." Leader Denies Having Ring in His Nose

WASHINGTON, May 5.—No public hearings on the tariff revision bill are to be held by the senate finance committee according to Senator Simmons, its chairman.

"There will be no public hearings," said he today. "That question has been settled."

That determination is expected to expedite consideration of the bill after it reaches the senate, probably Thursday. Senator Simmons said today that those most interested in the schedules were content to file briefs setting forth their views and recommendations. It is the present view of the finance committee chairman that the committee will have trouble under consideration about ten days or two weeks at most. Following that two weeks will be given senators to prepare for debate on the floor. The bill is expected to be reported to the senate about June 1 at the latest.

# RIOT IN HAITI OVER ELECTION

Michael Oreste Elected  
to Succeed Late  
Gen. Auguste

Panic at the Funeral  
Services—Shot Fired  
—Troops Called

PORT AU PRINCE, Haiti, May 5.—The Haitian congress yesterday elected Michel Oreste, president of the republic to succeed General Transcende Auguste, who died Friday night.

Oreste was a senator.

Both before and after the election serious disorders occurred, in which there was much killing. The disorders began during the funeral services of General Auguste at the cathedral.

Several fusillades were fired in different parts of the town and a panic ensued among the great assemblage in the church. Many women and children were trampled upon and seriously injured in the rush to escape from the cathedral.

Troops which were in readiness for such an emergency were called out and temporarily re-established order. The firing for a time ceased and the funeral ceremony continued without further incidents.

Congress, which failed to hold a ses-

sion Saturday on account of lack of a quorum, reassembled yesterday and elected Oreste president by 75 votes. During the session firing in the streets was resumed and continued at intervals through the day.

New President Active  
PORT AU PRINCE, Haiti, May 5.—Michael Oreste, the new president of the republic of Haiti elected yesterday, immediately displayed great energy in the suppression of disorder in the city and declared that he will maintain peace with a strong hand.

General Dely, governor of the city, who attacked the parliamentary building during the voting for the presidency yesterday, was repulsed, together with his followers by the regular troops commanded by General Folle-Vien. General Dely fled and took refuge in the Cuban legation.

WALSH WITH RANDALL  
Lieut. Governor Supports  
Foss' Choice

BOSTON, May 5.—Lieutenant Governor David L. Walsh has decided to vote for the continuation of Frank L. Randall of Minnesota for prison commissioner at the meeting of the executive council Wednesday.

Mr. Walsh stated yesterday that there was no doubt in his mind that the council would sustain Governor Foss on this important appointment.

"I have made up my mind to vote for the continuation of Mr. Randall, after having carefully considered the matter and feeling that he is in every way competent to fill the position," said the lieutenant-governor. "I feel that the responsibility for this appointment, as for all other appointments, should rest upon the shoulders of the governor. As lieutenant-governor I do not believe that I have any right to vote against the appointment of the governor simply because I might prefer another man."

MURDERER IS BURIED  
Mother of Piscopo Sobs  
at Funeral

BOSTON, May 5.—When the body of David Piscopo, who shot himself after having murdered his sweetheart at Revere last Thursday, was being removed from his former home at 305 Hancock street yesterday afternoon at the conclusion of his funeral services his mother, who had been told that the funeral would occur from certain undertaking rooms, rushed from the custody of another son and threw herself sobbing on the casket.

Not until she had become unconscious could the 76-year-old woman be removed from the place. Mrs. Piscopo has been ill since she learned of the tragedy at Revere last Thursday. For this reason she was informed that the funeral of her son would be held from Joseph A. Langone's undertaking rooms on Prince street.

Not until yesterday did the mother learn that her son's body was in the house.

After Mrs. Piscopo had been removed to another room the funeral services proceeded.

The house was crowded during the funeral services, the street in the vicinity of the house being black with people long before the hour for the services to commence.

The body of young Piscopo was taken to the grave at Woodlawn cemetery, accompanied by a large number of mourners. The societies San Giovanni and San Antonio, of which the dead man was a member, escorted the body as well. Two barouches of flowers followed the hearse.

# THE FOREST AND STREAM

Men Who go Looking  
for Fins, Feathers  
and Fun

Will Form Fish and  
Game Association  
in Lowell

Great interest is being manifested by sportsmen in Lowell and vicinity in the organization of the new Fish and Game association to take place in Odd Fellows hall, Middlesex street, Wednesday evening at 7.15 o'clock.

Mr. W. S. Holt is Lowell's representative in the state league and upon his invitation and request the following members of the Fish and Game league will attend the formation of the new association and will speak on "Fins—Feathers and Fun," the sportsmen's three P's: Mr. George H. Graham, of Springfield, state fish and game commissioner; Wm. J. H. Nourse of Worcester, president of the state league; John B. Smith of Springfield, secretary of the league; Wm. C. Adams of Boston, counsel for the league; Salem D. Charles of Boston, president of the Massachusetts association.

"The object of this association," says Mr. Holt, "is to unite all sportsmen who love outdoor recreation, especially with rod and gun, and also those who are interested in promoting the same. In an effort to procure more fish and more game for Lowell."

No city has better natural facilities for these God-given joys. Our partridge, quail and woodcock covers are ideal, our fox runs are alluring, and our trout streams, as well as our ponds, lakes and rivers, are unsurpassed in the quality of their waters and are picturesque and easily "get-at-able" in their location.

With these covers, brooks, rivers, ponds and lakes properly stocked and regulated, interest in the big outdoor movement will rapidly increase. This can and will be realized just as soon as all parties most interested throughout the city, get together, put their shoulders to the wheel, and boost a little.

Another important object of this organization is to fight vigorously for constructive and uniform legislation to oppose with equal vigor all proposed legislation calculated to restrict and hamper unreasonably, the unsurpassed pleasures of outdoor recreation with rod and gun.

We know that thousands of our people are interested in this great work, but their efforts have fallen short of the best attainable results through lack of thorough organization and through the misdirection of their energies.

This association will stand for the protection of all song and insectivorous birds.

A long list of applications is now in the hands of the committee in charge of this meeting and Lowell will soon have one more association of which its citizens may well feel proud.

# CARD OF THANKS

Dr. A. W. Turner wishes to thank both the physicians and the people who have bestowed so much praise on his pamphlet on the sure cure of rupture and piles without the use of the knife and without detention from business.

Dr. Turner wishes to state that any person suffering from rupture, piles, fistula and rectal troubles can have a copy of the book without charge by writing at once to him at Hotel Pelham, 74 Boylston street, Boston, Mass.

# NEW PASTOR PREACHED

At the Worthen Street M. E. Church

At the Worthen Street M. E. church Sunday morning, there was communion and reception of members. Sunday night the new pastor, Rev. C. E. Davis, said that a very close parallel exists between the ambassadors of the various nations and the ambassadors of Christ.

"President Wilson," he said, "whom we have chosen to be president of the United States, may have pressing relations with other countries. He cannot be present at the various seats of government of those nations. Hence he must have representatives there. Those representatives must represent the president and people of this nation. If any representative fails in this, he proves disloyal to the flag."

This ambassador must have certain requirements. First, he must know President Wilson, must be in perfect sympathy with his mind. If he is going to be a success he must know the spirit of the United States in all its phases, and always stand ready to represent that spirit, under any circumstances that may surround him.

This ambassador must be in constant touch with Washington. This will be especially true if great questions arise between nations. Japan has a minister in this country, and if he is faithful to Japan and to us, he will make Japan understand that California is not the United States; and Japan will know the spirit of California, and the spirit of the secretary of state, the president, and the whole government. It is an exceedingly delicate position for the man sent to Japan, unless within a few days the atmosphere clears up.

The ambassador who represents us is going to live in a foreign capital. It is his business to present his own ideas.

A very close parallel exists between the ambassadors of the various nations and the ambassadors of Christ. The ambassador of Christ, living in this country, in this city, represents the kingdom of Christ. He is not supposed to fast his own opinions on the people, but to proclaim the mandates of Christ.

The ambassador of Christ must know God, or else he can never represent him. We are all ambassadors of Christ, every one of us. The reason we do not get along better in our churches, is because we do not know Jesus Christ. We simply know about him. If we will give him the right of way, he will make himself known to us.

We must not only know Christ, but we must know intuitively the spirit of his kingdom. Not only this, but we must be perfectly loyal to his kingdom. There is one thing more: We are going to be citizens of his kingdom. Living in a foreign land, and that is Lowell. Lowell is foreign to the kingdom of Christ.

# GIRL STRUCK BY CAR

Picked Up in a Unconscious Condition

BOSTON, May 5.—When Margaret May Kenney, aged 7, of 14 Loring street, Somerville, was picked up unconscious from being struck by a trolley car on Somerville avenue yesterday morning, she was carried to the house of a neighbor, because her mother, Mrs. Mary A. Kenney, is so ill with pneumonia that it was feared she could not stand the shock of the accident.

Soon after being taken to the home of Fred G. Jones, a policeman, Margaret recovered consciousness and is expected to recover from severe cuts and bruises. Her mother is still in ignorance of her little girl's plight, and will not be informed until the child can come home.

Detroit Stockyards Destroyed—Two Hurt

DETROIT, Mich., May 5.—Two hundred and fifty sheep were burned to death yesterday in a fire which destroyed the Michigan Central stockyards in Detroit. The livestock pens, loading chutes and feed houses were consumed, together with several empty cars and a quantity of hay and corn. The loss is estimated at \$155,000. According to the railroad and police officers, the fire was of incendiary origin.

Two firemen were injured while fighting the flames, but both are expected to recover.

ENTHUSIASTIC MEETING  
Branch O'Neill-Crowley, I. N. F. Convened Yesterday Afternoon—Social Hour Followed Session of Business

Members of Branch O'Neill-Crowley, Irish National Foresters began the summer season yesterday afternoon with a record breaking meeting and notwithstanding the fact that the weather was such as to cause one to prefer the open air, the hall was filled with the large attendance, showing the keen interest of all.

No less than 20 applications for membership were received and five new members were initiated. Chief Ranger

council sent a check for the amount of the death benefit of Michael Brady and Treasurer James W. McKenna was instructed to pay the same to Mrs. Brady.

Following the business session, refreshments were served and a social hour enjoyed. There were songs by Brothers Roarke, Mulackey, Scullen, and McInerney and addresses by Bros. Linehan, Horan and Costello. The meeting was closed with the singing in unison of "God Save Ireland."

**Drunken Offenders**

Alexander J. Kennedy, a third offender for drunkenness, will spend the next four months in jail unless the superior

ing's sentence will prove more lenient than Judge Enright's. Frederick, who whose system seemed to be saturated with alcohol, was sent to jail for ten days, although it was only his first offense. The case of Antonio Figueroa Debarros, charged with stealing cloth from the Appleton mills was continued until Friday.

Judson Atherton was fined six dollars for his second appearance for drunkenness within a year. Joseph Tiffany, Jacob Krimosh, Timothy Crowley were all fined the customary \$5 for Sunday drunks. There were seven \$2 drunks and six releases by Probation Officer Slattery.

Mr. Barrett said he had nothing to say as to the respective merits of the two machines, the Stutz and the other machine, on which he was leaning. He said that the report had gone out that he, Barrett, would not accept anything but a Stutz car. He said it was a false impression that went out, and a false story was told when it was said that he was interested in a new particular machine and he moved that new bids be called for and that every dealer in Lowell submit his bid. tion at the boulevard are more complicated yet not as complete, perhaps, as the Cook well plans. The boulevard plan would include two filtrations. In the first bed the water would be aerated by dropping into a bed of coarse sand and the second filtration would be through a much finer sand. In the expansion of the filter area will be metered from the first to the second tank or filter in order to ascertain the amount of water that can be filtered in a given time. It is expected that the plan will be approved.

Commissioner Barrett asked that he be allowed to buy, through the purchasing agent's office, about 2500 feet of double jacketed knit hose; that bids be called for and that the bidders be requested to appear in person before the municipal council. It was so voted.

At 12:05 the meeting adjourned till tomorrow afternoon at 2 o'clock.

pected that both of these plans will be put in operation as soon as possible. Mr. Barrett said today that he would like to start right away on the Cook well station. "It seems," said Mr. Barrett, "an almost purely chemical proposition from start to finish. I have consulted the best authorities in the country and, if given the necessary permission, I will go along the lines as planned by Engineer Barbour. He is a consulting engineer and one of the very best in the country. He is now

engaged in installing a \$3,000,000 plant at Akron, Ohio, and he has also been consulted in New York City regarding a proposition, a proposition greater, in my estimation, than the Panama canal."

**Fifty-two Wells Abandoned**

Asked today if he had any positive proof that the amount of iron was increasing in the wells at the boulevard, Mr. Barst said the department had had such proof as to render it necessary to abandon 52 wells that were

yielding nearly 2,000,000 gallons of water a day. "We thought that by resting these wells we might get rid of some of the iron. The wells were closed in January, 1912, and were not opened again until April, 1913. We pumped them for all they were worth but the iron had no disclosed the water that there was no other alternative but to close the wells. We have had what we call 'danger signals' from three different sections of the city. Iron is not harmful, but it turns the water so as to

make it look far from inviting and to wash clothes with it would be entirely out of the question."

**The Clinton Reservoir**

The very dire suggestion has been made, and is said to have emanated from the water department, that Lowell may yet have to get her water from Clinton. Mr. Barrett allows that such a thing might come to pass but the possibility, he thinks, is very remote. "I hope," he said, "that we will not be forced to do this."

Rube will go to Marshall, Minn., soon, where he will play with a semi-professional team, according to information given out.

## OPENED SAFE WITH PICK AXE

\$2000 in Cash Taken From Boston Ticket Office

Safe Weighing 3800 Pounds Was Almost Demolished

BOSTON, May 5.—Nearly \$2000 in cash was stolen from the office of the Colpitts Tourist and Ticket Agency at 333 Washington street yesterday morning by burglars who broke into a "burglar proof" safe with a pickaxe.

The robbery was discovered by Clarence C. Colpitts, who with his brother, Stewart A. Colpitts, conducts the business, when they went to the office on the second floor of the building, yesterday forenoon at 11:30 o'clock.

The safe, weighing nearly 3800 pounds, was almost demolished. Near by lay an ordinary laborer's pickaxe marked "C. C. Co." and two carbide light tanks. Drawers containing nearly \$2000 in mileage tickets had been hastily drawn from the safe and lay scattered over the floor. The cash drawer, which had contained \$1810 in bills and about \$100 in silver Saturday night, lay on the floor quite empty save for four Canadian quarters, which the particular pickaxe burglars had evidently secured.

Although at least \$2000 worth of railroad and steamship tickets, which were in the safe and had been scattered about by the burglars, were negotiable, none was found missing when the Colpitts brothers finished checking up their stock yesterday afternoon.

Colpitts brothers notified police headquarters of the burglary upon arriving at their office.

John Ryan of 39 Marion street suffered a fracture of his right wrist yesterday while cranking an automobile at Hanson's stable in Rock street about 7 o'clock in the afternoon. The ambulance conveyed him to St. John's hospital where the bone was set.

## 14 WOUNDS IN HIS BODY

Neighbor is Charged With Assault

GLOUCESTER, May 5.—William Johnson of Willow street, was found lying on the floor at the home of a neighbor, Charles O'Neil of Willow street, with 14 knife wounds in his body, by the police early yesterday morning, when they were summoned to the house by a telephone message. O'Neil was arrested on a charge of assault with a dangerous weapon upon his friend, and the wounded man was taken to his home, where it was said last night his condition is serious.

The police allege that the men quarreled after they had had several drinks together, and that O'Neil pulled out a jack-knife during the fight.

He is alleged to have felled Johnson and after kicking him and beating him with his hands he jumped upon his prostrate body and "hacked" him with the knife. Some of the wounds were deep, but the majority of them only penetrated the skin.

His clothing was ripped and torn where the knife blade had been thrust.

## GRUESOME FIND

BODY OF JOHN MARONEY FOUND IN CONCORD RIVER

Man Had Been Missing From Home Since Last Tuesday—It Is Believed Death Was Accidental

The mysterious disappearance of John Maroney, aged 41 years, of 189 Quebec street, was explained yesterday, when his body was found floating in the Concord river opposite Whitworth's boat house in Billerica street. Undertaker Higgins was notified and the body was removed to his morgue.

Maroney left home last Tuesday night and visited a sister in Whipple street. He left there shortly after 9 o'clock, apparently going to his home, but he has not been seen since. It is believed that he lost his way and stumbled into the river.

Deceased is survived by his wife, Della; four sisters, Mrs. James Ashley of this city, Mrs. Patrick Droney of Cambridge, and Mrs. John Lynch and Mrs. Austin Furlong of Norwich, Conn.; and four brothers, two of Wisconsin and two of Ireland.

## JAPAN WANTS NEW TREATY

Papers Intimate Desire to Seek Treaty on Land Question

Reports State Japan Should Demand Naturalization Right

SAN FRANCISCO, May 3.—Comment in official circles in Tokyo and among the newspapers there indicate a desire that the Japanese government at once seek a new treaty with the United States on the question of land ownership and the like could be specifically settled. This statement is contained in a despatch, published today in the Japanese New York, a morning paper here from its Tokyo correspondent. The correspondent added that Prof. Takahashi of the Imperial university of Tokyo had issued a statement holding that Japan should demand at once the right on naturalization in the United States as the only way of solving the problem.

## MAKES DEAD HEART BEAT

Doctor Claims Magnetism Passes From Hands

PARIS, May 5.—Dr. Henry Durville, whose feats of mummification and preservation of animal and vegetable bodies by the magnetism that passes from his hands, are attested by well-known physicians, now asserts that by similar passes he has been able to extend in an extraordinary way the results obtained by Dr. Carrel in preserving life in the detached parts of living organisms.

According to Dr. Durville he has succeeded in keeping a frog's heart, immersed in a seven-tenths of a percent solution of salt water, beating for 24 hours and more by "magnetizing" it with passes from time to time. In this way, he says, he has also succeeded in making the bladder part of a frog respond to an electric current 15 days after killing the animal, three days beyond the extreme limit under normal circumstances.

He further states that he tested his theory with two frogs' hearts. One of these which had ceased to beat he put in a magnetized serum; the other still beating, was immersed in an ordinary serum. At the end of several days the magnetized heart began to beat and continued to beat at the contact of an electric current, while the other was completely dead.

Dr. Durville began his experiments with a study of the effect of magnetism on microbes, and says he is able to stupefy or even kill cholera bacilli. He says also that he has completely mummified a human hand by passes.

## FOUND UNCONSCIOUS

James J. O'Neill Died at Hospital on Saturday Night After a Brief Illness

James J. O'Neill, aged 55 years, died at St. John's hospital Saturday night, shortly after being removed there from his room in Agawam street, where he was found unconscious late in the evening. Death was due to natural causes.

Deceased, who was employed at the U. S. Cartridge Co.'s plant, worked as foreman and when he returned to his home he seemed in the best of health. Later he went to his room and was not seen again until supper time, when someone went to his room to call him for the evening meal. He was found unconscious and sent to the hospital, where he passed away shortly after his arrival. He was unmarried, and is survived by two brothers, Michael of this city and John of East Chelmsford. The body was removed to the home of his brother, Michael, 29 Crowley street.

## FOR MEMORIAL DAY

Many Civic Bodies to Appear in Line

WHOLE FRENCH REGIMENT TO TURN OUT

The Veterans Desire to Interest Young People in Work—Memorial Sunday

Mr. George Worthen, who at the recent convention of the organization of veterans was elected chief marshal of the Memorial day parade, is making rapid progress in the arrangements and as far as can be judged from present indications, the parade and general observance will be one of the largest and most complete ever witnessed in Lowell.

An entire regiment of French volunteers, comprising several local companies as well as others from Haverhill, Nashua, Lawrence and Fitchburg has announced its acceptance of the invitation to take part in the procession and will be among the most prominent bodies in the line. Capt. Bergeron of this city is said to be in a large measure responsible for this remarkable augmenting of the parade.

Among the others who have already been invited, or who will at an early date receive such invitations, are the four companies of stationers, the local army, and the militia as represented by the Wolfe Tone Guards, Sheridan Guards and Meagher Guards, the high school regiment, O. M. I. Cadets, Boy Scouts and others. It is expected that nearly all of these will accept the invitation and augment the ranks of the paraders. The high school regiment and the O. M. I. Cadets will in all probability be accompanied by their respective drum corps.

The principal figures in the Memorial day procession will of course, be the veterans who comprise the G. A. R., the Spanish War Veterans, and the Sons of Veterans. The G. A. R. alone will have two bands and the older men who are feeble or crippled will ride in carriages.

This parade will form at the South common and according to the schedule will start from there at about four o'clock in the afternoon. It will be reviewed at city hall by the members of the city government. The line of march as far as it has been determined will be Thorneike to Middlesex, to Central, to Merrimack, to Moody, over Cabot or Tremont streets and return over a part of the route.

Mr. Worthen, the chief marshal, stated to a Sun representative that to his mind it will be the largest parade of its kind held in Lowell for many years, and that it is the first time that a whole regiment has signified its intention of taking part.

Beginning at nine o'clock in the morning the usual ceremonies at the various cemeteries will be held under the direction of Captain Lucius A. Derby of the Sons of Veterans. Representatives of each of the veteran organizations, the three G. A. R. posts, the Spanish War Veterans and the Sons of Veterans will make the rounds of the burial grounds in automobiles, conducting the memorial services for the dead soldiers and decorating the graves with flowers and flags.

Following the parade, there will be camp fires held at the posts and organizations with addresses and reminiscences appropriate to the occasion.

Memorial Sunday will be observed by services at the First Congregational church on May 25 when the G. A. R. posts and other veteran bodies will be invited to attend. The sermon will be delivered by the pastor, Rev. Mr. Newcombe.

## LIGHT ON BOLD HOLDUP

Two So. Boston Youths Were Arrested

BOSTON, May 5.—The arrest of two South Boston young men in Springfield by the Boston police yesterday brought to light a daring holdup and robbery at Longwood and Brookline avenues, Roxbury, on the night of April 11. The victim was Louis A. Crawford of 325 Longwood avenue. He was attacked by three young men, given a severe beating, in which his nose was broken, his chest severely injured and a gold watch valued at \$30, a stickpin valued at \$50 and a diamond ring worth \$400.

The men taken into custody yesterday were Charles S. Sullivan, 22, claiming to live at 725 East Third street, South Boston, and William R. Moore, 24, who says he lives at 222 E street. Detective Donohue and Mitchell of the bureau of criminal investigation and Patrolmen Vaughn and Stricker of the City Point station went to Springfield yesterday and brought the prisoners back.

They were arrested following information sent to the police in Springfield by Chief Inspector McGarr. The third man is being sought. His arrest is only a matter of a short time.

Mr. Crawford, the victim of the robbery, was followed from Flood square, South Boston, by the alleged highwaymen, according to the police.

## Pimpily? Well, Don't Be

People Notice It. Drive Them Off With Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The pimples will vanish after you have taken the tablets a few nights.

Nothing ever cleansed the blood, the bowels and the liver like Olive Tablets. Olive Tablets are the only successful substitute for calomel—they oil the bowels; there's never any sickness or pain after taking them.

Olive Tablets do all that calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are made of pure vegetable compounds mixed with olive oil. Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the most effective result.

Try them. Take one nightly for a week. Then look at yourself in the glass and see how you feel. 40c and 25c per box.

## CROWD FIGHTS POLICE

A Big London Gathering Ends in Riot

LONDON, May 5.—Wild scenes of disorder occurred yesterday in the demonstration in Trafalgar square under the auspices of the Free Speech defense committee. The police tried to prevent speeches from the Whitehall side of the plinth of the Nelson column, and only the intervention of James Kier Hardie, socialist and independent labor member of the house of commons, who was chairman of the meeting, prevented a serious conflict.

As it was, the disorder, many times culminating in scuffles between the crowd and the police, continued for almost two hours.

By the time the marching socialist, labor and other organizations, with bands playing the "Marseillaise," reached Trafalgar square, 20,000 persons had gathered there and as many more in the surrounding streets.

Permission to hold a meeting was given at the last moment, on the understanding that no suffragettes should be allowed to speak. Unable to secure permission to march as an organization, the supporters of the Women's Social and Political union marched with the dockers, their colors flying, preceded by a huge banner inscribed "Where there's a will there's a way." Flags of the Women's Social and Political union were hoisted on the plinth from which they waved continuously during the meeting.

The trouble started when a socialist speaker began to address the crowd from the Whitehall side of the column.

## PSYCHOLOGY AND JOBS

Former Plays a Prominent Part in the Various Plans for Vocational Guidance

Are you looking for a job as motor-man? Prove your ability by psychology. Will you make a good chauffeur? Submit to a mental test and find out. Would you be a successful telephone operator? You will save the company's time and your own by undergoing a psychological examination to determine your fitness for the position. Psychology plays a prominent part in the various plans for vocational guidance currently reported to the United States bureau of education, by means of which scientists hope to devise ways of measuring people with regard to their qualifications for certain kinds of work.

Dr. Leonard P. Ayres, of the Sage Foundation, has just summed up a number of psychological tests for positions actually put into practice in modern industry. Thus the American Telephone and Telegraph company engaged Prof. Munsterberg to introduce a test for determining which applicants were likely to prove good telephone operators. The girls were examined with reference to "memory, attention, general intelligence, space perception, rapidity of movement and accuracy of movement and association." The results showed that the girls who qualified in the tests were the most efficient in practical service, while those who stood at the foot of the list failed later and left the company's employ.

Prof. Munsterberg has also tested street-car motormen by elaborate apparatus, with a view to selecting those

least likely to be responsible for accidents. As a result of his experiments he came to the significant conclusion that the application of such a test on motormen would result in the rejection of about 25 per cent. of those now employed.

Mr. S. E. Thompson used "reaction-time tests" in selecting girls for the work of inspecting for flaws in the steel balls used in ball bearings. The final outcome was that 35 girls did the work formerly done by 120; the accuracy of the work was increased by 66 per cent; the girls' wages were doubled; the working day decreased from 10½ hours to 8½ hours; and the profits of the factory increased.

Another set of psychological tests aims to select positions for persons rather than persons for positions, but not much has really been done in this field. The difficulties in the way of both kinds of tests may be inferred from the fact that there are something like 10,000 separate kinds of gainful occupations in the United States.

Dr. Ayres sees great possibilities in psychological tests for choosing the right persons for jobs. He says: "When the best possible adjustment shall have been attained between work and workman, each one will have his full opportunity to achieve at least something for commonwealth and commonweal. The task of the world will be better done and the workers will receive greater rewards, deeper joy, and fuller satisfaction in their doing."

## THE SMOKE NUISANCE

Perhaps no public nuisance has been more persistently assailed for years by the press and people of this city than the smoke nuisance and few grievances have been more deserving of general condemnation. It is therefore a matter for general rejoicing that Mr. Charles Riley, the newly appointed smoke inspector, has so successfully set out to secure the cooperation of the mills in eliminating the evil as far as possible. Still more full of promise is the spirit of friendly public service manifested by those who have already improved conditions in their respective plants, and those others who so readily promise a speedy improvement.

Lowell has suffered from the smoke nuisance particularly because of the fact that the belching chimneys are not located in any one section of the city, or grouped in any order. They are pretty evenly distributed and no section of the city is free from their contaminating and unhealthy influence. To realize the extent of the grievance one must go to some commanding altitude such as the summit of Fort Hill, or to the top of the new Sun building, and see the volume of smoke constantly ascending, and forming a cloud of vapor which hangs over the city and its people. When the atmosphere is heavy or moist this smoke laden pall hangs low and is breathed in by thousands, to their discomfort and ultimate physical disadvantage.

As yet, though strong claims have been made by inventors, the complete elimination of smoke from factories does not seem possible, but there are several modern appliances which reduce the necessary emissions to a minimum. Such improvements have been adopted by some of the larger mills, and are about to be installed at the Merrimack corporation and the Saco-Lowell shops. This is grateful intelligence, and the people will give ready credit to the new smoke inspector and those mills which have set so salutary an example. Now that the matter is so well begun let it continue unchecked until the fair face of heaven may smile above us in unveiled brightness.

## PARK REPAIRS

The suggestion of the mayor that the park commissioners submit to the municipal council an estimate of the cost of such necessary repairs as the construction of new walks on the common, is a wise and timely one, and no time should be lost in acting on it. The season when parks are more beneficial to the people and more generally patronized is at hand, and all necessary repairs should be rushed, so as to be of advantage to the thousands who are ready to profit by them in a short time. The preservation of our present parks is as important as park extension, and the homely old proverb that "a stitch in time saves nine" has a logical application to this very necessary phase of the park commissioners' work.

The mayor, in his communication, reiterates his statement that he is in favor of park development and extension by the systematic annual expenditure of money. This, too, is the public view, and although the needs of some of the parks may now call for a greater appropriation than it is found convenient to make, the city must eventually adopt a more liberal policy towards park expenditure, if the commissioners are to make the most of these parks already in existence, not to mention the future opening up of others in sections where parks are now undoubtedly much needed.

Another matter that will have a direct bearing on the future of our parks system, is the election of park commissioners to take the place of the two distinguished members of the board who have recently resigned. It is most important that men be elected who are qualified for the work by experience and breadth of view, men who can give freely of their time, for the position is one that will offer vast possibilities for faithful public service to the right individual. No consideration other than fitness for the work should influence any member of the municipal council in choosing from applicants to the park commission.

## LARGER, LIVELIER, LOVELIER LOWELL

Some of the most important cities of this country have made a very felicitous choice of alternative adjectives, either to typify their good qualities or to set an ideal standard for which all their good citizens were expected to aim. Recently a desire has been expressed locally to describe what our city boasters desire for the future of this city. We all know of the cry for a "bigger, better, busier Boston. Why not strive for a "larger, livelier, lovelier Lowell?"

A "larger" Lowell can be secured by

the enterprise of our citizens in investing their money locally, and by making it possible for out of town manufacturers to come here and to open new enterprises. A necessary aid to this is city housing. Let us all forget and forgive our minor faults and shout our virtues from the house top.

A "livelier" Lowell can be born of the industry of our inhabitants and the creating of better relations between the employer and the employed. Cities and towns whose names are linked with continual labor disturbances are handicapped in their growth. It remains for us, therefore, to take an interest in the thousands of our workers, extend to them the helping hand, and save them from the dangers of false leadership.

A "lovelier" Lowell will rise as it by magic out of the present city, if we all cultivate personal responsibility and civic pride. An awakened desire for beauty will urge householders and citizens generally to do all they can in adding the general plan for neat homes, beautiful buildings, clean streets, and beautiful parks.

Let us remember the three adjectives. Let us strive for what they typify. If we do it will not be long before we have the gratification of seeing this good old city really grow into a "larger, livelier, lovelier" Lowell.

## THE RAILROAD HEARING

The inquiry into the affairs of the New York New Haven and Hartford railroad company is shedding a lurid light on many things which have until now been misunderstood.

The most violent attacks have been made on President Mellen by Louis D. Brandeis, as the paid assailant of the company, its policies and business. So violent were the charges that President Mellen appeared at the inquiry before the interstate commerce commission as a voluntary witness.

In his testimony, Mr. Mellen did much to dispel the suspicions which had been cast upon his management, and his minute and honest testimony has gone far towards clearing up the calumnious charges impugning his management and the sincerity of his motives.

At the hearing Saturday Mr. Brandeis was foiled at every point when he tried to substantiate some of the worst charges that he has been making in the press against the management of the Boston & Maine as well as against the New Haven system. It was this fact that led Mr. Choate of counsel for the New Haven to rise in the presence of Mr. Brandeis and inform the presiding commissioner that over an hour had been wasted on vague and groundless insinuations. The same exhibition of Brandeis' tactics enabled Lawyer Rich to make a very effective onslaught on the critics of the Boston & Maine management. It cannot at this stage be predicted just what the outcome of the inquiry will be, but one thing is certain, that very little foundation has been shown for even one-twentieth part of the charges made by Brandeis and other critics of President Mellen and his progressive policies. It is quite probable, however, that after the inquiry is over, Mr. Brandeis as the Nemesis of the New Haven management, like Othello, will find his occupation gone.

## MAYOR O'DONNELL COMMENDED

Mayor O'Donnell and the police department, of which he is the official director, deserve great praise for the manner in which the I. W. W. parade was suppressed and the projected demonstration kept strictly within the bounds of the law Saturday afternoon. The national leaders of this revolutionary organization found they could not hold a parade in Lawrence and so they selected this city, believing that they could come here with their bands, their red flags and their collected forces to stir up the city and cause industrial strife. They were completely blocked in their intentions and so far as the general public was concerned, nobody would realize that Messrs. Eiler, Haywood and Giovannitti had arrived in the city or that an I. W. W. demonstration was in progress. That demonstration was confined strictly to

the South common, and even there the speakers and members generally took particular care to observe the letter of the law, realizing that the slightest breach would be a signal for their arrest and judgment at the police station. The affair of Saturday has given the people of Lowell the assurance that no turbulent element, either local or otherwise, can carry on any public demonstration against the orders issued by the police department to prevent any illegal or revolutionary demonstration along our public streets.

## EDITORIAL COMMENT

### Train Regulations

Lynn Telegram: Conditions in different cities vary. Consequently, regulations must be made to meet them. In the large cities where there are practically no narrow streets in the business section, there has been no need of the "one-way street" system. Boston found that it had so many narrow side streets running from Tremont to Washington streets that it was necessary that vehicles should only travel in one direction on any of these streets. The plan has met with good success.

### Bryan's Mission

Worcester Telegram: Mr. Bryan did his best with the Sacramento legislators and if he failed it was because failure was foredoomed. The secretary kept himself well in hand. People who have thought that he had no balance wheel must admit that this incident is totally inconsistent with their belief.

### Congressman Gardner

Worcester Telegram: Congressman Gardner is not one who "wants little" for himself. He not only wants to succeed Weeks as Massachusetts member of the republican congressional committee, but to become chairman of that desirable body. But as he still further progresses to want to stand for "liberal" ideas in the party, it remains to be seen if there is room for him. There certainly is for the ideas.

### Children on Streets

Brookline Telegram: Even though warnings to children to be careful in using the highways of the city do so in one ear and out of the other, it may not be true in all cases, and persistence in giving warnings may cause them to stay put between and somewhat above the said cars.

### Cost of Living

Manchester Telegram: The high cost of living problem is all a part of the existing order of things. In the old days the average family, on the farm or elsewhere, didn't eat California oranges or southern-grown garden truck or tropical luxuries. They lived on the products of the soil in their own community and only had fruits and vegetables when the season for them came around. The clothing was made from home-grown flax or wool, and the socks knitted in the home. Now if we want all things from all over the earth brought to our doors every month by a telephone order, and delivered by automobile, we must expect to pay the price.

### Walking Straight

Fall River Globe: A recent headlineless official dinner given by Secretary Bryan to the foreign diplomats, the Montreal Gazette is moved to remark that "if the statesmen of the United States talk as soberly as they dine, the present regime should be a safe one, if their election can keep them in line." That ought not to be difficult. They are likely to walk straight, if they take nothing stronger than grape juice aboard.

### Moving Day

Lawrence American: The freedom with which the American transfers his home spot involves many losses. It tends still further to disintegrate family life, already much shattered by looser ideas of marriage and other wise. At each abandoned hearthstone something is left behind. The scattered members of the family never feel that attachment to each other that formerly existed toward the old homestead.

# WAS IT THE WORK OF A FIRE BUG?

## Two Mysterious Fires Broke Out in Wigginvill—One Caused Damage of \$3000

The residents of Wigginvill are beginning to believe that there is a fire bug in their midst, and they probably have a good reason to fear that an incendiary is operating in that vicinity. For within a couple of days two mysterious fires broke out in the village. One did not amount to anything, but the latter which was discovered last night caused damage to the extent of about \$3000.

The first fire was discovered Saturday night shortly after six o'clock in a small storehouse owned by Burton H. Wiggins. The blaze was discovered in time and was soon extinguished, before any damage was done. Last night at about 11 o'clock another fire broke out in another storehouse owned by the same party, and only a short distance from the other storehouse. The flames were not discovered until it was too late to save the building.

An alarm from box 315 called the department to the scene, but when the

firefighters reached the place, the flames had made such headway that it was seen at the outset that the building was doomed. Starting at one end of the building the flames quickly ate their way along the walls until all four were a blaze. The roof was burning briskly, and as the flames burned through the beams supporting the walls and roof of the building, the entire structure caved in, the firemen barely getting out of the way in time. The sparks set another storehouse nearby on fire, but this was soon extinguished. The burned building contained a concrete mixer worth \$800, hoisting jacks, jack screws, a truck and many building tools of various kinds. The total damage, nearly all covered by insurance will be between \$2000 and \$3000.

The sheds are located near the end of Rockingham street, in an out of the way section where one would not expect a fire to start itself. The fire chief will make an investigation.

## PASTOR RAPS MELLEN Asks What He Has Done With Millions

BOSTON, May 5.—Mr. Mellen, what have you done with the millions of dollars which you have handled?" asked the Rev. Frederick E. Heath in his sermon at the Warren Avenue Baptist church last night.

"The steward and expert accountant, Mr. Brown, has found conditions which seem questionable, deplorable, even disgraceful," he continued. "He showed instances of funds plainly misused and misappropriated. The public needs an investigation of Mr. Mellen's record, and it is right that it should demand it."

"The New Haven appears to hold \$10,000,000 of the stock of the Billard company. Where is the tangible property behind that stock, Mr. Mellen?" "I believe Mr. Mellen is an honest man. I do not believe any of the money has stuck to his fingers. He certainly is a gentleman and he certainly knows his business. But there are some questions which he has not satisfactorily answered. For the handling of millions in some instances he has given no satisfactory explanation.

"Placed in the position which he occupies, this man wields a tremendous influence. Controlling the hundreds of subsidiary trolley and steamship lines and railroads which his system has gradually acquired, he can cause millions of dollars to be placed which are not his; he can make possible the success or failure of thousands of homes. Such a man can do a tremendous amount of good, but he can do a great deal more harm."

## SUFFRAGETTES ON TRIAL

## Charged With Conspiracy to Damage Property

LONDON, May 5.—The police court hearings against the suffrage leaders held under a charge of conspiracy to maliciously damage property were resumed at Bow street today. Several prisoners, including "General" Drummond, Miss Harriet Keir, Miss Agnes Blake, Miss Beatrice Saunders, Miss Annie Kenney and the chemist, Clayton, had been held in custody since their last appearance and they were joined in the prisoners' enclosure today by Miss Laura Lennox and Sidney Drew, the printer, who had been released on bail. Archibald Bodkin, the prosecuting counsel for the treasury in opening the case described the law of "conspiracy" and said the defendants had been constantly meeting together. He referred to Mrs. Drummond as "a violent and unscrupulous woman." He said that Clayton, the analytical chemist, in whose possession were found documents describing a plan of campaign for burning down buildings in London had put his brains at the disposal of the women for carrying out crimes and producing what their own paper described as a "reign of terror" in London. From the comfortable seclusion of Paris Mr. Bodkin said, Miss Christabel Pankhurst had sent an article every week to the suffragette paper either commending what had happened during the preceding week or inciting to fury acts of militancy.

CHICAGO, May 5.—Physicians are puzzled by the strange death of Edward B. Slater, a lawyer of Maryland and Virginia, who died here of an infection of the brain due to an ulcerated tooth. Mr. Slater, who was 50 years old, entered a local hospital three months ago suffering from what appeared to be a minor ailment and one which it was expected would yield readily to medical and dental treatment. Despite all that could be done, however, the infection spread from the jaw to the brain and death resulted.

## TWO MISSIONS WERE CLOSED

Two Weeks' Mission at  
St. Margaret's a  
Great Success

Women's Mission at St.  
Michael's Closed—  
Men's Opened

With impressive services in the pretty little church of St. Margaret's in the Highlands, the solemn closing of the mission for the men of the parish, held under the direction of the Rector, Rev. Fr. Turner, took place last evening at half past seven. The attendance was very large and taxed the capacity of the auditorium. This has been the case throughout the mission.

The sermon of the evening was delivered by Rev. Fr. Turner, and his subject was perseverance. He briefly reviewed the sermons of the week and the instructions, dwelling upon the importance of the lessons learned in the mission and showing the reference of each to the salvation of all. During the beginning of the discourse Rev. Fr. Turner took occasion to congratulate the men on the success of their retreat and to express his appreciation of their cooperation with the parish in the work. Such spirit, he said, will have its reward.

In concluding, he impressed upon his congregation the fact that the mission as a matter of fact is a failure if it serves merely to enlighten and strengthen them for a short time, and if after a few weeks they yield again to temptation and forget all their good resolutions. The results of the mission are the prime essentials and the retreat is intended to keep the people in the righteous path constantly after its close.

Benediction followed the sermon and the congregation received the papal blessing. This morning, Rev. Fr. Turner celebrated a mass for the clergy and members of St. Margaret's parish. Rev. Fr. Nolan left for Brooklyn in the afternoon and opened a mission there last night, while Rev. Fr. Turner went to Lincoln, N. H., today.

Tonight there will be a meeting of the members of the parish to form plans and make the preliminary arrangements for the lawn party which will take place in June. A general man-

ager and other officers will be chosen at this convention.

St. Margaret's parish, it is judged by the recent mission and its general activities, is certainly prospering.

Dominicans at St. Michael's  
The Dominican Fathers who have been conducting the mission at St. Michael's church, brought to a close the retreat for women which has been occupying the past week. The closing was observed with a double service, yesterday afternoon, the first at 2 o'clock being for the married women and the next at 4 o'clock for the young ladies of the parish. Both were very largely attended.

Throughout the week the magnificent attendance had necessitated double services, both the upper church and the basement being crowded nightly. The fathers were frank in their expressions of admiration for the interest and perseverance of the congregations.

The closing service was most impressive. At 2 o'clock the married women gathered at the church and listened to an eloquently delivered and thoughtful sermon on perseverance by Rev. Fr. Higgins, in which the preacher exhorted them to a continuance of the faithful practice of their religion throughout their lives, letting the teachings of God through his priests remain perpetually with them, guiding their actions and making certain their salvation. He emphasized the fact that for some it might be the last mission, the last occasion on which they shall receive such a call from God, and consequently impressed upon them the necessity for perseverance. At 4 o'clock in the afternoon the young women of the parish gathered in large numbers at the second of the services in the solemn closing, and the sermon was preached by Rev. Fr. Clark along similar lines. Both services were concluded with benediction, and the blessing of the pope was conferred upon the congregations.

In the evening at half past seven the church, sanctuary, vestibules and vestry were filled with a great multitude of the male members of the parish, who came to attend the opening of their week's mission. The sermon of the evening was delivered by Rev. Fr. Higgins, and the preacher dwelt on the life of Christ as the example to be followed by men in the practice of their religion and working out their salvation. He related the story of how Christ defeated the devil in the temptation on the mountain and how he then died that he might redeem men who had fallen into sin. He briefly outlined the life of the savior, which he said is the one great example of men for the salvation of their souls. Rev. Fr. Higgins celebrated benediction, and the service closed with congregational singing.

A three days' retreat for the children of the parish opened this morning at the church at 7 o'clock with a mass and instructions. There will be a mass each morning at 7 o'clock and instructions in the afternoon. This retreat will close on Wednesday.

## WELCOME KING OF SPAIN

Alphonse to Arrive in  
Paris Wednesday

PARIS, May 5.—The coming visit to the French capital of King Alphonse of Spain, who will arrive on Wednesday, is regarded as of considerable importance for Europe as it is expected it may mean the entrance of Spain into the friendly understanding known as the triple entente between France, Great Britain and Russia. The French government is making elaborate preparations for the reception of the king. The rooms which he is to occupy at the palace d'Orsay have been decorated with beautiful objects of art and the ambassadors' hall, where he will hold a reception, has been hung with splendid specimens of tapestry brought from Louis XIV's favorite sitting room at Versailles palace.

ADDRESS ALL OFFICIAL COMMUNICATIONS TO THE SUPERINTENDENT

State of New York  
BRANCH OFFICE OF  
Banking Department  
New York, N.Y.

Dear Sir:

The Banking Department of the State of New York, as liquidator of the Carnegie Trust Company and the Northern Bank of New York, is largely interested in the property formerly known as the Morris Park Race Track, located in the Borough of the Bronx, City of New York, extending from about the line of 170th Street to Pelham Parkway.

This property, consisting of about 3000 lots, will be sold at public auction to the highest bidder on May 15th, 1913, and succeeding days.

The property is high ground, many of the streets are on grade. The City grew up to the property years ago and this great track has topped its development in a northeasterly direction.

There are five railroad stations on or in the immediate vicinity. A number of trolley lines come to and along its borders, and this Department is advised by the Manager of the Interborough Railway that two of the lines of rapid transit, recently adopted by the City, will have stations adjoining or near the property, and that it is expected one of these lines will be in operation within the next two years. This property will then be in direct communication with all parts of Manhattan and Brooklyn for a five-cent fare.

Your attention is respectfully called to this proposed sale.

Very truly yours,  
GEORGE O. VAN TUYL, JR.

State Superintendent of Banks,  
in charge of the Carnegie Trust  
Co., and the Northern Bank in  
liquidation.
